Conference With Spring Valley Water Company Officials Relative to Installation of Pipes in Streets Under Construction.

Supervisor Gallagher asked the Chairman of the Finance Committee to get together with the Streets Committee and the officials of the Spring Valley Water Company on the subject matter of capital expenditures for pipes in streets to be constructed. As the situation stands we have twenty-six odd miles, if not more, of streets to be constructed. We are faced with a $30,000 demand from the Fire Department and the Engineer's Department to either lay the paving down and later improve the water service in them or do it now, and, of course, our position is to do it now. We asked Supervisor Havenner that if it is their duty to please confer with the company on this subject and then let us meet in joint committee again and bring in a report to this Board that will settle the policy. Either pipe lines are going to be placed in with the street or they are not. If they are not and it is so determined these contracts will be released, but at least we ought to know one way or the other. So far as I am concerned it awaits for a declaration of policy.

Supervisor Havenner agreed to call a conference of these officials of the Spring Valley Water Company for Friday afternoon and requested the Clerk to notify all concerned, including the City Engineer and the City Attorney.

ADJOURNMENT.

Whereupon, the Board at the hour of 6 p. m. adjourned.

Explanation of Vote.

Supervisor McSheehy: I will vote aye and the reason is simply this: I asked the chairman of the Utilities Committee if his committee contemplated bringing in a report of all of the lines in our City. We all know they are losing money. He said they would in sixty or ninety days. We will know exactly the situation then in reference to our own amendment and I am not going to deprive these people at this particular time. I imagine that the committee will bring in a report telling us as to certain routes in our City and therefore we will be able to treat all of them alike.

SPECIAL ORDER—2:30 P. M.

Sunset Parkway Appraisals.

Consideration of appraisals of land to be acquired for Sunset Parkway.

Communications.

The following matters were read by the Clerk:

San Francisco, September 27, 1928.

Mr. Jos. Phillips, Right of Way Agent, City and County of San Francisco, City Hall, San Francisco.

Dear Sir: Referring to subject of conversation you had with the writer this morning on the reviewing of the prices placed by you on the Sunset property, and confirming my telephone message to you this afternoon, please be advised that after careful consideration I do not feel that I can conscientiously render an opinion of this nature in the manner desired by you.

As explained to you, I have not had close personal contact with the sales activities in the Sunset District, and to accomplish what is desired would require a considerable research on my part involving some length of time which at the present time I am unable to give the matter.

My personal view is that unless an appraiser were closely in touch with the values in the district or unless he gave the subject the full consideration that a regular appraisement would involve, his opinion would be in effect an appraisement without proper consideration of all of the elements entering into the value and such a course would not constitute a fair or proper one under all of the circumstances.

There are some exceptions to this and as you mentioned that the figures had already been reviewed by Mr. Phillip Paschel and Mr. Fred Boeckmann, both of whom are constantly engaged in this particular class of work, it would seem to me that you have selected two of the outstanding experts of the city, whose opinions are highly valued by the real estate fraternity.

Hope you will understand my viewpoint as herein expressed and regret that I cannot see my way clear to do the job for you, as requested.

Yours very truly,

VINCENT F. FINIGAN.

San Francisco, September 29, 1928.

Mr. J. J. Phillips, Right of Way Department, 375 City Hall, San Francisco, Calif.

Dear Mr. Phillips: For reasons explained to you, I do not care to review the appraisal made by you on the property in the Sunset District under condemnation by the City for boulevard purposes.

Again assuring you of my willingness to cooperate in any way that I can, I remain,

Yours very truly,

LOUIS J. PFAU, JR.

Motion.

Supervisor Gallagher moved that the Chairman of the Finance Committee be requested to ask the Real Estate Board to appoint a committee of five (5) of its members to investigate the prices of our Rights of Way Department (in the matter of Sunset Parkway land appraisals) as to whether or not said prices represent the true and fair market value of such property as of March 16, 1928.

Privilege of the Floor.

Dr. Leddermann, J. T. Cline, attorney representing Sunset property owners, and *Mrs. Steiger, H. M. Zigler*, realtor, and *Mrs. J. S. Breslin*, property owner, were heard at length in the pending matter.

Motion.

Supervisor Todd moved that only the property in dispute be appraised by the Real Estate Board.

Motion *lost* by the following vote:

Ayes—Supervisors Andriano, Havenner, Hayden, McGovern, Powers, Suhr, Todd, Toner—8.

Noes—Supervisors Colman, Gallagher, Kent, McSheehy, Marks, Roncovieri, Shannon, Stanton—8.

Absent—Supervisors Deasy, Schmidt—2.

Motion Carried.

Whereupon, the roll being called on Supervisor Gallagher's motion, the same was *carried* by the following vote:

Ayes—Supervisors Andriano, Gallagher, Havenner, McGovern, McSheehy, Marks, Powers, Roncovieri, Shannon, Suhr, Todd, Toner—12.

Noes—Supervisors Colman, Hayden, Kent, Stanton—4.

Absent—Supervisors Deasy, Schmidt—2.

Explanation of Vote.

Supervisor Marks: I desire to make a statement for the record, that I am willing to vote for the employment of these experts, but without any belief on my part that I am bound by their conclusion in any respect. I mean their conclusion would be persuasive with me, but I don't think, and I think that most of the Board feel the same way, that their conclusion be final. In addition to that I am still convinced the only way for a solution to be arrived at with respect to the property owners who will not make agreement with the City is to have the matter decided in a legal way by condemnation, and I reserve the right upon the report of those officials to cast my vote in favor of condemnation suits.

Supervisor Gallagher presented:

Referred to Public Health Committee.

Registrar to Mail Official Argument With Sample Ballot.

Supervisor Havenner: It will be necessary for the Board to formally notify the Registrar of official approval of the argument which we have approved or intend to approve to go out to the voters with respect to the charter amendments and bond issues. Now I remember at the last session or the session before we adopted a motion with reference to authorizing certain arguments to be set out. The record I think is in error in one respect in that it says we authorize the Registrar to print these arguments. He does not print any arguments, and I wish the record to be changed, because I did not make any such motion, I think. The motion should be that the Registrar of Voters be authorized to mail the official argument of the Campaign Committee in support of the Public Utilities Commission charter amendment, the Campaign Committee's argument in support of the revenue bonds charter amendment, and the argument of the San Francisco Transportation League against the so-called Market street amendment, amendment No. 24. Then the same motion could be made with respect to the argument of the Campaign Committee in support of the Broadway Tunnel bonds, the argument of the Campaign Committee in support of the Aquatic Park bonds, the argument of the

Campaign Committee in support of the Park bonds, the argument of the Campaign Committee in support of the Airport bonds, the argument of the Campaign Committee in support of the sewer bonds, the argument of the Campaign Committee in support of the Civic Center bonds, the argument of the Campaign Committee in support of the playground bonds, the argument of the Campaign Committee in support of the health bonds, the argument of the Campaign Committee in support of the Civil Service extension and retirement system Charter amendments, Charter amendment No. 29. Is that the one you were interested in?

Supervisor Gallagher: Police and fire.

Supervisor Havenner: The Labor Council's argument for the Supervisors' salary amendment. I have a note here—I think this record is in error in several respects. I have a note that Supervisor Andriano moved for an argument for the Civic Center amendment. What was that?

The Clerk: Bond issue.

Supervisor Marks: Does it mean that or the Federal Building?

Supervisor Havenner: What argument were you moving for to be sent out by the Registrar at the last meeting?

Supervisor Andriano: Civic Center bonds.

Supervisor Havenner: That is all covered then. A special resolution covering the argument for the Public Utilities Commission amendment was presented to me today, Mr. Marks, by Mr. Hardee, representing the Citizens' Committee in support of the Public Utilities Commission amendment, asking that their argument, which they are having prepared, after its submission to this Board for approval, be authorized to be sent out. Are you familiar with that?

Supervisor Marks: No, I have not seen it, but I think it should be referred to the Judiciary Committee to report on that back to the Board.

Supervisor Havenner: There is not very much time. It will be ready some time this week. Are you set aside, however, to print it with such revision as the Board may see fit to make?

Supervisor Marks: Yes, but when will it meet?

Supervisor Havenner: I think we ought to give authority now, if it is deemed advisable. They have agreed to print 250,000 copies of their argument and submit it first to this Board for approval. I assume it will be a general argument and in favor of the Public Utilities Commission amendment. If there is no objection, I will move that authority be granted to the Citizens' Committee in support of the Public Utilities Commission Charter amendment, of which Donzell Stoney is chairman, to prepare and have mailed out by the Registrar the argument in support of the amendment after submission to this Board.

Supervisor Marks: What are the others you have on your list?

Supervisor Havenner: I read, I think, all of the bond issues, the revenue bond amendment, the argument against the so-called Market Street Initiative, the argument for the Civil Service and Retirement System amendment, Charter Amendment No. 29 at the request of Supervisor McSheehy——

Supervisor Marks: What is 29?

Supervisor McSheehy: Detective Sergeant.

Supervisor Havenner: And the Labor Council's argument in support of the Supervisors' salaries.

The Chairman: How about the Mayor's fund?

Supervisor Havenner: Well, a separate motion can be made for that, and I make that motion.

Supervisor McSheehy: I second that.

The Chairman: Such is the order.

Supervisor Havenner: Now it will be understood that the various organizations in support of the bond issues and in support of the

various Charter amendments are going to pay for their own printing.

Supervisor Stanton: The City does not pay for any of it.

Supervisor Havenner: Not unless the Board votes to pay the cost of printing arguments for the amendments that have been initiated by this Board. I personally would like to move in favor of that later, but we have no funds and I don't know where any can be raised, unless——(End of sentence not heard).

The Chairman: First do I hear a second to Supervisor Havenner's motion?

Supervisor Gallagher: I second it.

The Chairman: All right.

Supervisor Andriano: I was going to inquire of Supervisor Havenner—perhaps it is due to an excess of timidity on the part of the Board—but I heard nothing said concerning the Supervisors' salaries.

The Chairman: He mentioned that.

Supervisor McSheehy: Do I understand that these amendments outlined here, will the literature pertaining to them be furnished the Registrar?

Supervisor Havenner: Not by the City, no, but by the campaign committees that have been named in support of the bonds.

Supervisor McSheehy: Take our own amendment, say the Supervisors, we have to furnish the literature ourselves.

Supervisor Gallagher: The Labor Council will furnish it.

Supervisor Stanton: What is that?

Supervisor McSheehy: I took our own as an illustration and Supervisor Gallagher said the Labor Council will furnish the literature.

Question on Supervisor Havenner's motion.

The Chairman: If no objection, such is the order.

League of California Municipalities Convention.

Supervisor Todd called attention to the 30th annual convention of the League of California Municipalities meeting in Redlands October 9 to 13, inclusive, and moved that the chair appoint a committee to attend.

Motion *carried*.

Board of Supervisors, City Hall.

Gentlemen: I sincerely regret to be compelled to ask to be excused at today's meeting, due to a very annoying throat.

It is more distressing to me because of the fact that it compels the attendance of a number of citizens without knowledge beforehand that some of the matters which I have in charge as Chairman of the Streets Committee and as Acting Chairman of the Fire Committee must go over, and I assure you I am sorry for the inconvenience.

Will say this, however, if there are some matters which you feel must be decided today and my presence is, in your opinion, necessary, I will, if you deem it so, come to the Board this afternoon for a while at least. There shall accompany this letter a certificate from Dr. Larza A. Smith, specialist, explaining my illness.

Awaiting your pleasure and assuring you again of my deep regret, permit me to be

Cordially yours,

ANDREW J. GALLAGHER, Supervisor.

Ordinance Regulating Parades and Processions.

Bill No. ————, Ordinance No. ———— (New Series), as follows:

Regulating holding of parades and processions over and along the public streets, and preventing interference by any person without authority; empowering the Chief of Police to establish lines along routes of procession, and restricting certain districts and hours for processions other than funeral processions.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. No person shall, without authority of law, interfere with or obstruct the free and uninterrupted passage in, upon, along, or through any street of any procession or disturb any assemblage of people met for the purpose of a funeral for the burial of the dead.

Section 2. No parade or procession shall occupy or march on any street unless written notice of the time and route of such procession or parade be given to the Chief of Police not less than twenty-four (24) hours previous to its forming or marching and said Chief of Police may designate the street or streets such procession or parade can occupy, and when so designated the officer in charge of such procession or parade shall direct the same only along the route designated by the Chief of Police. Provided, however, that no parade or procession shall occupy or march upon any street in the Central Traffic District unless special permit in writing has been granted by the Chief of Police.

Section 3. Any person who, upon making application, has been denied such written permit may refer such application to the "Committee on Parades" for further consideration and action.

Section 4. The Police Committee of the Board of Supervisors is hereby authorized to act as a "Committee on Parades" for the purposes of this ordinance.

Said Committee is hereby given the right and it shall be its duty to consider and act upon any application for a permit, provided for in Section 3 hereof, that has been referred to it in accordance with the provisions of said section. The findings of such Committee shall be binding upon the Chief of Police.

Section 5. The Chief of Police is hereby empowered to establish lines, if he deem it necessary, on both sides of the street along the proposed route over which the parade or procession is to pass and no person or vehicle of any kind, excepting those having accredited badges and the apparatus of the Fire Department, responding to an alarm of fire, the vehicles of the Police Department and Fire Marshal and auxiliary fire apparatus, belonging to any person, firm or corporation when such apparatus is responding to a call to a fire, and any vehicle belonging to any person, firm or corporation engaged in the business of transporting persons to the premises of the persons transported when such vehicle is responding to a call to a fire or to a burglar alarm, ambulances, whether of public or private character, or any other vehicle when such vehicle is employed in carrying a sick or injured person to a hospital or other place for relief or treatment and the United States mail wagons shall pass over or through said lines.

Section 6. The lines at the intersecting streets and crossings along the line of march of such parade or procession are within one (1) block of said crossings and the intersections and said line shall be removed when the parade or procession has passed.

Section 7. In case of fire, accident or any emergency along the line of march of such parade or procession the Chief of Police or the police officer in charge of the detail on the streets along which such parade or procession shall pass is hereby given full power to divert said parade or procession around such fire, accident or emergency over

and along the nearest cross street from such fire, accident or emergency and shall direct the return of such parade or procession to the line of march originally authorized.

Section 8. The provisions of this ordinance shall not apply to funeral processions or to parades or processions composed wholly of the military or naval forces of the United States or of the State of California.

Section 9. The "Central Traffic District" referred to herein is that portion of the City defined as the "Central Traffic District" in Ordinance No. 7691 (New Series) of the City and County of San Francisco.

Section 10. Any ordinance or part thereof in conflict herewith is hereby expressly repealed.

Section 11. This ordinance shall take effect immediately.

Disapproval of Charter Amendment No. 24, Initiative Petition of Market Street Railway Company for Indeterminate Franchises.

Supervisor Shannon presented:

Resolution No. 29839 (New Series), as follows:

Whereas, there has been submitted to the people of San Francisco, by the initiative method, a charter amendment permitting the privately-owned street railway companies to surrender their existing franchises, and to obtain in lieu thereof revocable permits or indeterminate franchises to continue to operate their railways over the streets of our city, which said charter amendment will appear upon the ballot at the coming election as "Charter Amendment No. 24"; and

Whereas, said amendment, if adopted, will redound to the benefit of the private corporations now operating street railways in San Fran-

cisco, and to the detriment of the people of our city, for the following reasons:

1. That the approval of the amendment will add millions of dollars to the value of the properties of the companies, without improving the character of said physical properties, and will accordingly increase the price of said properties should the City desire to purchase the same.

2. That the revocable permit will be practically a perpetual franchise for the reason that it can only be revoked by the City voting bonds to purchase the properties of the private company, and there will be every incentive for the company to defeat any bond issue to provide funds for the purchase price which may be submitted to the people, for the reason that until the purchase price is paid the private company will continue to operate.

3. There will be no possibility of the company agreeing with the City upon a satisfactory purchase price, for the reason that until a purchase price is agreed upon or fixed, the private company continues to operate.

4. If an agreement cannot be reached between the City and the company, the City must bear the entire expense of ascertaining the value of the properties.

5. When the value of the properties is fixed, the price must be paid within a period of not less than three months nor more than twelve months. This purchase price must be the result of a bond issue approved by two-thirds of the voters. If the bonds are not approved on their first submission, it would be next to impossible to submit them again within a year, and the City would be compelled to proceed anew to fix the value of the properties.

6. The revocable permit to be issued under the proposed amendment will be upon the same conditions as are contained in the franchises issued fifty years ago. If a franchise is to be issued to any company, it should be upon such conditions as would be appropriate to meet the needs of the present day, not the needs of fifty years ago.

7. Under the provisions of the amendment the City must take over the entire properties of the company, irrespective of conditions of equipment, or rolling stock, and likewise irrespective as to whether or not any particular line will fit in with the City's system, or can be operated by the City without a great financial loss to the City.

8. The propaganda being circulated by the proponents of the amendment, to the effect that upon the expiration of existing railway franchises, the cars of the privately-owned companies must cease operating, is untrue. Unless the companies themselves cease the operation of their cars, they will be permitted to run until the City takes over the lines or makes other arrangements for their operation. During this period the cost of upkeep of both roads and rolling stock can be cared for by agreement between the City and the company.

9. The passage of the amendment will place the privately-owned companies in a position to immediately apply to the Railroad Commission for an increase of fares, and if that body should fail to grant such increase, to make the increase themselves and go to the Federal courts and prevent the enforcement of such increase being interfered with, as did the privately-owned companies in Los Angeles.

10. The City Engineer and City Attorney are, under authority of this Board, now making an investigation as to the value of the properties of the privately-owned companies. This investigation will be completed early in the coming year, when a report as to the value of the properties and to what extent they can be utilized in connection with out municipal system and a plan for their acquisition will be made to the people. No action should be taken at this time which will prevent the people putting into effect any plan submitted should they desire to do so.

11. That, should this amendment become a law, the streets of San

Francisco are, for transportation purposes, given over to the existing privately-owned railway companies until the City purchases their equipment, and no matter whether the City could or could not make use of that equipment, it must purchase it before it could enter into any other arrangement for street railway transportation. Time has changed and will again change this important adjunct of municipal life. We have seen the horse car entirely, and the cable car practically, superseded by the electric trolley. We should not place ourselves in the position that we cannot benefit by the advent of improvements and inventions as they are given to the world. Now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco in regular meeting assembled to hereby call upon the people of San Francisco to disapprove the proposed Charter Amendment No. 24.

Adopted by the following vote:

Ayes—Supervisors Andriano, Colman, Havenner, Kent, McGovern, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—12.

Absent—Supervisors Deasy, Gallagher, Hayden, McSheehy, Marks, Toner—6.

(All as per detailed description and written offer on file.)

And the City Attorney is hereby authorized to examine the title to

said easements, and if the same is found in satisfactory condition to accept on behalf of the City and County of San Francisco a deed conveying said easements to said City and County of San Francisco, free and clear of all encumbrances, and to record the said deed, together with copy of this resolution, in the office of the County Recorder of Alameda County.

Ayes—Supervisors Andriano, Colman, Havenner, Kent, McGovern, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—12.

Absent—Supervisors Deasy, Gallagher, Hayden, McSheehy, Marks, Toner—6.

State Constitutional Amendment No. 1 Condemned.

Supervisor Schmidt presented:

Resolution No. 29844 (New Series), as follows:

Whereas, State Amendment No. 1 on the ballot reduces San Francisco representatives in the State Senate from seven Senators to one Senator for the entire county; and

Whereas, there is a well-defined movement to move all State offices from San Francisco to Sacramento, which the State Senators from San Francisco have successfully and soundly opposed; and

Whereas, the thirty-five million dollars a year received from the gas tax by the State is allotted to the different counties by the members of the Legislature when in session; and

Whereas, San Francisco is vitally interested in the Bay Shore Highway and the Skyline boulevard, receiving its just share of money from the Legislature; and

Whereas, State Amendment No. 1 is taxation without representation, as under this plan almost two-thirds of our population would be represented by three State Senators, and the one-third by thirty-seven Senators; be it

Resolved, That this body advise the voters to vote "no" on State Amendment No. 1, misnamed to mislead the voters "Federal Plan," as this amendment only affects the State Legislature and not Congress of the United States.

Adopted by the following vote:

Ayes—Supervisors Andriano, Colman, Havenner, Kent, McGovern, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd—12.

Absent—Supervisors Deasy, Gallagher, Hayden, McSheehy, Marks, Toner—6.

Privilege of the Floor.

Roy Fellom, State Senator, was granted the privilege of the floor on the foregoing matter and pointed out the disadvantages and discrimination against large centers of population and compared with legislative representation of rural districts if the act is approved by the electorate.

SPECIAL ORDER—11 A. M.

Bridge Application, Montgomery K. Miller.

Application of Montgomery K. Miller for a franchise to construct, maintain and operate a toll bridge from the City and County of San Francisco, State of California, to the City of Oakland, Alameda County, California, and the right, permission and authority to take tolls thereon for a period of fifty (50) years after date of the granting of said franchise.

The bridge is to be located along the following described line, to-wit:

Beginning at the intersection of the center lines of Berry and Second streets, in the City and County of San Francisco, thence southeasterly to the west end of Pier No. 46 on the San Francisco waterfront; thence easterly over said pier to its eastern end; thence easterly across the Bay of San Francisco to the point of intersection with the center line of Peralta street, in the City of Oakland, California, produced southerly to the center line of the vehicular roadway on the Alameda Mole, in the City of Alameda, California; thence northeasterly on the said produced center line of Peralta street to its intersection with the cen-

ter line of Eighth street, in the City of Oakland, Alameda County, California.

The length of said bridge is approximately 30,000 feet and the width of said bridge is approximately 80 feet. The said bridge will include an overhead approach to extend from Second and Berry streets, San Francisco, to Rincon Hill or immediate vicinity.

Attached drawing shows location.

Privilege of the Floor.

Montgomery K. Miller was granted the privilege of the floor and was heard at length regarding his application.

Motion.

Supervisor Andriano moved that the application be denied.

Supervisor Roncovieri: I desire to explain my vote. I am going to vote against dismissing this case on the ground that I have not, as a member of this Board, heard the project explained by the applicant. I know nothing about his project and I think there is not a member of the Board that knows anything about the project. I think we should all vote that down. I cannot consistently vote to reject something that I have not heard anything about and know nothing about, and for that reason only and without prejudice I shall vote no.

Supervisor Powers: I would like to ask this gentleman a question. Supervisor Gallagher was arguing this matter two hours, and we had that up two consecutive days with nearly a full membership listening.

Supervisor Roncovieri: I am not satisfied yet. I don't know that it would not cost the City a cent, as the remark was made this morning by this gentleman. He is the applicant, and I believe we should hear him fully. I am not saying what we will do later on, but at the present time I would like to hear the explanation. It might fit in with our plans of public ownership and it might not. I don't know.

The Clerk: Motion by Supervisor Andriano, seconded by Supervisor Powers, that the bridge application of Montgomery K. Miller be denied.

Motion *carried* by the following vote:

Ayes—Supervisors Andriano, Havenner, Kent, McGovern, Powers, Shannon, Todd—7.

Noes—Supervisors Colman, Gallagher, Roncovieri, Suhr—4.

Absent—Supervisors Deasy, Hayden, Marks, McSheehy, Schmidt, Stanton, Toner—7.

Supervisor Andriano: I think it would be advisable to have the record show that the applicant was given full opportunity to be heard; that no one objected to his being heard fully, and that when the motion was made to deny the application no protest of any sort was made by the applicant.

The Chairman (Supervisor Havenner): If there is no objection, such will be the order. The application is denied.

Supervisor Colman: That is not the fact, is it?

The Chairman (Supervisor Havenner): That the application is denied?

Supervisor Colman: No, about the objection.

Supervisor Andriano: He was given the privilege of the floor to talk as long as he wanted, and when I made the motion to deny the application the applicant did not make a protest or ask any further hearing.

Supervisor Roncovieri: He expressed a desire for the full membership of the Board to be present, but did not give us his right to continue. Are you satisfied with the hearing you have had?

Mr. Miller: Not at all.

Supervisor Roncovieri: If you are, I am satisfied.

Mr. Miller: The fact is you have taken your vote, and I suppose the issue is closed; but the fact is, gentlemen, that the bridge problem, in its most vital and essential particulars, has not been digested by this Board. That is made plainly evident by the fact that you yourselves have changed your own policy three times, and you have not

gotten down to bed rock; and the thought I had in asking for a continuance, before a full membership of the Board, was to go into the subject in detail and prove to you those facts and point out to you that my general proposal was really a correct solution of the bridge problem. There never has been placed before any American city the proposition where a municipality will reap the full benefit of private enterprise without paying for it, and I repeat to you that this bridge will be handed over to this municipality without cost of a cent. There is not anything more to be gained on behalf of the public than is embodied in my general proposition.

The Chairman (Supervisor Havenner): For the purposes of the record I desire to make a statement: The gentleman's repeated assertion that this Board has changed its policy three times is fundamentally incorrect. The fundamental policy of this Board, as repeatedly declared, was that this bridge should be publicly financed, constructed and operated, and the Board has consistently adhered to that policy ever since it first enunciated it last year. The only amendments to the original policy have been one of procedure with respect to accomplishing the name of public ownership and operation. The Board is absolutely adhering to its present policy, and I predict that it will adhere to it until the session of Congress is opened.

Action Deferred.

The following matters were *continued two weeks*:

ROLL CALL FOR PETITIONS.

Progressive Report of Health Committee on Investigation of Garbage Disposal System in Various Cities.

The following was read by Supervisor Toner, ordered *spread at length in the Journal and copies sent to members*:

San Francisco, California, November 1, 1928.

Honorable Board of Supervisors.

Gentlemen: Your Health Committee hereby presents the following progressive report as the result of our investigation in the different cities of the United States and Canada in connection with the question of garbage disposal and its relation to conditions in San Francisco:

Prior to the year 1896 all garbage collected in San Francisco was disposed of by what is now known as the Fill and Cover Method. In that year an incinerator was erected on the block bounded by De Haro, Alameda, Rhode Island and Fifteenth streets, by a private corporation. This incinerator was of the Thankeray type, with a 300-ton capacity. At that time the population of San Francisco was such that this incinerator easily disposed of the garbage. Today the population has doubled, and we find that this incinerator is called upon to incinerate 600 tons daily, which is impossible.

In the year 1908 a bond issue was authorized for the purpose of erecting modern incinerators in our city. A Heenan & Freud type of incinerator was erected on the land south of Army street, between Kansas and De Haro streets, costing:

Land	$ 15,000
Building and equipment	377,704

This latter sum is a total loss to San Francisco, on account of failure of the incinerator to properly function. This plant is abandoned and equipment diverted to other purposes. As to rehabilitation of this plant for further incineration purposes, our final report will deal with this matter. A second incinerator was planned for the North Beach section, and a site purchased on which $144,679 was expended. Of

that sum $80,000 was for land, the balance for plans, surveys, etc., amounting to $64,679, of which the latter sum is a total loss. The sum of $407,130 was expended for the purchase of the present incinerator, including land at Fifteenth and De Haro streets, which also covered interest and legal expenses, or, in other words, the City of San Francisco today, after an expenditure of $946,514 for garbage incinerators, has only to show a part of a block on Army and Kansas streets valued at ..... $ 15,000
Lot at North Beach..... 80,000
Fifteenth and De Haro property and equipment..... 350,000

$445,000

Subtracting the $445,000 from the original bond issue of $946,514 leaves a net loss of $501,514.

An injunction suit was instituted in the superior courts two years ago for the purpose of condemning the Fifteenth and De Haro streets incinerator as a public nuisance. The courts have shown leniency to the city by thus far withholding their decision, thereby giving the city an opportunity to abate the nuisance. Your Health Committee, realizing the seriousness of the situation and the mistakes made in the past, have made investigations throughout the United States and Canada for the purpose of recommending a proper disposal of San Francisco garbage.

The following cities were visited by your committee, and different methods of garbage disposal studied, as follows, viz.:

Chicago—Fill and cover reduction plant and a new Superior incinerator, 600-ton capacity.

Evanston, Illinois—Disposal by incineration—Superior type.

New York—Borough of Manhattan: Dumping at sea—fill and cover and incineration of the following types: 1 De Carie, 300 tons; 20 Sterling, 300 tons each. The Borough of Queens: Consists of the following subdivisions: Mineola, N. Y., Nye incinerator; Freeport, N. Y., Borge Elleson incinerator; Rockville Center, N. Y., De Carie, 325 tons; Staten Island, N. Y., Nye; White Plains, N. Y., Nye.

Washington, D. C.—Disposal by reduction plant.

Also visited the United States Department of Public Health, and found this department has no data and no standardization of garbage disposal.

Boston—Reduction works on island in Boston harbor. State Engineer of Massachusetts recommends incineration for Boston and vicinity.

Providence, R. I.—De Carie incinerator, 160 tons.

New Bedford, Mass.—Superior, 100 tons.

Montreal—Fill and cover, and are making plans for incineration.

Outremont, Canada, near Montreal—De Carie.

West Mount, near Montreal—Heenan & Freud.

Toronto, Canada—Two Sterling plants, 400 and 200 tons each.

Cincinnati—Fill and cover. Asking bids for incineration.

St. Louis, Mo.—Coder incinerator, abandoned fill and cover and hog feeding.

New Orleans—Two De Carie incinerators and fill and cover, building two Sterling.

Houston, Texas—Two Superiors.

Fort Worth, Texas—One Superior.

Dallas, Texas—One Superior.

Galveston, Texas—Assembled plant.

El Paso, Texas—Fill and cover.

Portland, Oregon—Nye and fill and cover.

Seattle—Fill and cover.

Tacoma—Fill and cover.

Salt Lake City—Fill and cover.

Sacramento—De Carie.

Oakland—Dumping at sea, 300 tons daily.

Berkeley—Fill and cover.
Long Beach—Fill and cover. Plans are being prepared for incineration.
Los Angeles—Hog feeding and Nye, 800 tons.
Beverly Hills—One twenty-ton Nye.

In all our inspections in the cities above mentioned we had the benefit of expert engineering advice from the city engineers and others in charge of actual operation of plants. We also investigated the different methods of collections of garbage and found in all cities that collection and disposal were under municipal control. In most cities we found a great variation of cost in collection and disposal.

We have in our possession reports covering the experience of 200 cities in the United States showing cost and methods of garbage disposal. Your committee has communicated with and have reports from Berlin, Vienna, Hamburg, Paris, Bordeaux and Liverpool on the above question. In all our investigations, both in the United States and Canada, and by correspondence in Europe, we find incineration is the scientific method being adopted and all other methods abandoned. Before submitting our final report, your Health Committee will study and make recommendations on the following subjects:

1. Ordinance governing the collection and disposal of garbage.
2. Location of incinerators.
3. Advisability of building one or two incinerators in different parts of city.
4. Method of financing the building of the said incinerators.
5. Type of incinerators to be erected.
6. Disposal of garbage during the building of incinerators.

The Committee will make its final report covering the above-mentioned subjects in ninety days from date.

HEALTH COMMITTEE.
(Signed) DR. J. M. TONER.
J. EMMET HAYDEN.
J. B. McSHEEHY.

Declaring noxious or dangerous weeds growing upon the streets or sidewalks, or upon private property, within the City and County of San Francisco, to be a public nuisance, providing for their removal and destruction, and creating a lien upon the property fronting upon such streets or sidewalks or upon which said nuisance exists for the cost of abating the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. All weeds growing upon the streets or sidewalks or upon private property within the City and County of San Francisco, which bear seeds of a wingy or downy nature or attain such a large growth as to become a fire menace when dry, or which are otherwise noxious or dangerous, are hereby declared to be a public nuisance.

Section 2. Whenever any such weeds are growing upon any street or sidewalk or private property, the Board of Public Works shall report the same to the Board of Supervisors. The Board of Supervisors shall then, by resolution, declare the same to be a public nuisance. Said resolution shall refer to the street by the name under which it is commonly known, and describe the property upon which or in front of which said nuisance exists by giving the lot and block number of the same according to the Assessor's Block Book; and no other description of said property shall be required. Any number of streets, sidewalks or parcels of private property may be included in one and the same resolution.

Section 3. After the passage of said resolution, the Board of Public Works shall cause to be conspicuously posted in front of the property on which or in front of which said nuisance exists, at not more than one hundred feet in distance apart, notices headed "Notice to Destroy Weeds," such heading to be in words not less than one inch in height and substantially in the following form:

Notice is hereby given, that on the ——— day of ————————, 19—, the Board of Supervisors of the City and County of San Francisco passed a resolution declaring that noxious or dangerous weeds were growing upon or in front of the property on ———————— street, in said City and County of San Francisco, and more particularly described in said resolution, and that the same constitute a public nuisance which must be abated by the removal of said noxious or dangerous weeds, otherwise they will be removed and the nuisance will be abated by the municipal authorities, in which case the cost of such removal shall be assessed upon the lots and lands from which or in front of which such weeds are removed, and such cost will constitute a lien upon such lots or lands until paid. Reference is hereby made to said resolution for further particulars.

All property owners having any objections to the proposed removal of such weeds are hereby notified to attend a meeting of the Board of Supervisors of said City and County of San Francisco to

be held (give date), when their objections will be heard and given due consideration.

Dated this ——— day of ————————, 19—.

BOARD OF PUBLIC WORKS.

Section 4. At the time stated in the notices the Board of Supervisors of the City and County of San Francisco shall hear and consider all objections or protests, if any, to the proposed removal of weeds, and may continue the hearing from time to time. Upon the conclusion of said hearing the Board of Supervisors, by motion or resolution, shall allow or overrule any or all objections, whereupon the Board of Supervisors shall be deemed to have acquired jurisdiction to proceed and perform the work of removal, and the decision of the said Board on the matter shall be deemed final and conclusive.

At the time fixed for receiving and considering said report, the Board of Supervisors shall hear the same, together with any objections which may be raised by any of the property owners liable to be assessed for the work of abating said nuisance and thereupon make such modifications in the report as they deem necessary, after which, by motion or resolution, said report shall be confirmed. The amounts of the cost for abating such nuisance in front of or upon the various parcels of land mentioned in said report shall constitute special assessments against the respective parcels of land, and as thus made and confirmed shall constitute a lien on said property for the amount of such assessments, respectively. After confirmation of said report, a copy shall be turned over to the Assessor and the Tax Collector of the City and County of San Francisco, whereupon it shall be the duty of said officers to add the amounts of the respective assessments to the next regular bills for taxes levied against the said respective lots and parcels of land for municipal purposes, and thereafter said amounts shall be collected at the same time and in the same manner as ordinary municipal taxes are collected, and shall be subject to the same penalties and the same procedure under foreclosure and sale in case of delinquency as provided for ordinary municipal taxes.

Proceedings in re Resolution No. 29965, Extending Vote of Appreciation to Ernest Bloch.

After the transaction of other business the following proceedings were had in relation to Resolution No. 29965, extending a vote of appreciation and an invitation to visit the Board to Ernest Bloch:

Supervisor Havenner: Mr. Chairman, at the meeting last week, the Board adopted a resolution in honor of our distinguished fellow citizen, Mr. Ernest Bloch, who is recognized today as the world's foremost composer of music. The Board invited Mr. Bloch to visit us in order that we might, in a personal way, express our appreciation of the work that he has done while living in San Francisco, and I would ask, at this time, that the Clerk read again the resolution adopted by this Board last week.

The Clerk (reading): "Resolution No. 29965 (New Series).

Whereas, Ernest Bloch, San Francisco composer, has been awarded the prize offered by "Musical America" for the best symphony by an American composer, the judges being a large group of the greatest musicians in America; and

Further Resolved, That a copy of this resolution, together with an invitation to visit this Board, in order that he may be congratulated in person, be addressed to Ernest Bloch.

Adopted—Board of Supervisors, San Francisco.

Ayes—Supervisors Andriano, Colman, Gallagher, Havenner, Hayden, Kent, Marks, McGovern, Powers, Roncovieri, Shannon, Stanton, Suhr, Todd, Toner.

Absent—Supervisors Deasy, McSheehy, Schmidt."

The Chairman: Mr. Havenner.

Supervisor Havenner: Mr. Chairman, in response to the invitation conveyed by this resolution a group of citizens of San Francisco who take a very active interest in the musical affairs of our community have brought Mr. Bloch to us this morning. They include Miss Maizie Musgrove, Mrs. Cecilia Stone, Frederick J. Koster, Redfern Mason, Alfred Hertz, John Coty, Mr. M. Weill, Albert Patton, Mrs. Marcus Koshland, Hans Leschke and Albert Elkus.

Mr. Chairman, I desire to say again that I think that San Francisco is notably distinguished by the recent, and not so very recent at that, acquisition among our citizenship of Mr. Bloch. Mr. Bloch today stands at the very eminence of musical prestige in the world. We have invited him here today to congratulate him upon his notable work which has recently won the prize offered by "Musical America." In recognition of that distinguished work arrangements have been made by the Auditorium Committee of this Board, and by the Musical Association, to produce it in San Francisco in the Auditorium, concurrently with its production in a number of cities elswhere, as recited in that resolution. It gives me a great deal of pleasure, I esteem it a high privilege, to be able to present Mr. Bloch to the Board this morning, and to renew congratulations to the people of San Francisco that he has decided to make this his home city. I would like to introduce Mr. Bloch. (Standing applause.)

Mr. Ernest Bloch: I feel very honored and very proud at such a wonderful reception. I certainly was surprised when I heard about that when I came back from a trip abroad. I had no idea, when I wrote this symphony two years ago here in San Francisco, of what would happen. One never knows what will happen when one writes a work. I wrote a work for the American people. And I hope I have succeeded. Since I came to this country twelve years ago my love for this country has grown, and I hope my understanding of this country has grown, too. And what I have felt in America and what has incited me to write a work on America, was that the possibilities of the future were not closed. More than any other country in the world this country is in the making. We have many centuries before us, and that great idea that America is the future, can be the future, can hold the future, not only for America but for the whole world, this idea I have tried to express in music, and I hope that, when you hear this symphony, you will all feel that it is not my symphony but that it is your symphony, that it will unite all of the people of this country, no matter how high a position they may have, and no matter how humble a position they may fill, that it will unite them all in one common feeling of solidarity and love. If I have done that, then I will really feel complimented above all. (Applause.)

The Chairman: It seems very appropriate that we should be greet-

ing Mr. Bloch on the hundredth anniversary of the death of Franz Schubert, and it is my wish, and I know the fond wish of the members of this Board, Mr. Bloch, that your fame will spread, and that on your hundredth anniversary the name of Bloch will be as famous as is the name of Schubert. (Applause.)

Supervisor Marks: Mr. Chairman, I desire to make a motion. I move you that the proceedings of this Board this morning, together with the resolution upon which the Board has acted and the remarks which have been made be suitably engrossed and presented in the name of San Francisco to Mr. Ernest Bloch.

Supervisor Todd: I second that.

Supervisor Marks: I do that, Mr. Chairman, for the reason that Mr. Bloch has taken the means of bringing the City of San Francisco, musically and culturally, to the attention of the entire civilized world, and I think that, by his latest achievement, he will greatly advance the activity and the interest of San Francisco in things which are cultural. Mr. Bloch has selected the universal language to express his hope and his desire for the future of America. He has done it in a way which, I am told by experts, will bring his renown to the entire world. We are particularly proud, I think, in San Francisco, of our musical people. We are proud, of course, of Ernest Bloch, we are proud of Yehudi Menuhin, we are proud of Alfred Hertz. (Applause.) We are proud of a host of men who have proved that San Francisco believes, traditionally, that "Man does not live by bread alone but by the feeding of the spirit." This man has accomplished something, I think, momentous for San Francisco, and I present my motion to the Board.

The Chairman: You have heard the motion.

Supervisor Havenner: I will second the motion.

The Chairman: No objection? Such will be the order.

Supervisor Colman: In seconding it I, too, would like to express my pleasure at the knowledge that Mr. Bloch is going to stay in San Francisco. It means a great deal to San Francisco. If, perchance, we look at it in a hard-boiled way, we might be excused also at taking pleasure in the knowledge that San Francisco will become a center for music, and we might tell Mr. Bloch, that in this Board of Supervisors he will receive the staunchest support, in fact, if I might boast a little bit, I cannot help but point, with a great deal of pride and pleasure, at the accomplishment in the way of the development of music by this Board of Supervisors, brought about by the splendid pioneering efforts of our colleague, Supervisor Emmet Hayden. (Applause.) I think we might safely call Supervisor Hayden the father of municipal music in San Francisco. And it reflects great credit upon the Board to see fit to follow the example of Supervisor Hayden and to tread the path which he started upon. I know that Mr. Bloch will be glad to know of that, and that he will feel that he will have the heartiest support of this Board of Supervisors in developing San Francisco in a musical way. And we are most happy and very proud that you are going to be one of us. (Applause.)

Supervisor Havenner: Mr. Chairman, I think it would be very appropriate if Supervisor Hayden would say just a few words on this occasion.

The Chairman: Mr. Hayden. (Applause.)

Supervisor Hayden: Mr. Chairman, members of the Board and our distinguished guest, Mr. Bloch: It is needless for me to say, Mr. Bloch, following my interest in music municipally, backed by this Board of Supervisors for many years, that naturally I am proud to have you here today in our presence, and have you the recipient of the congratulations and the felicitations of this Board of Supervisors who I know have done more for music as a legislative body than any city or any such institution in any city in America. I think that we have set the pace for music municipally by which other cities might follow. I do not think, looking over the histories of the cities musically, that

there is any city to compare with San Francisco for her interest in music.

We are indebted also to Mr. Alfred Hertz, in the beginning, for laying the foundation of musical symphonies. At that very beginning Mr. Hertz took the responsibility of presenting to the people of San Francisco symphonic compositions under the auspices of the City, at a price within the reach of all pocket books and with repertoires that soon were appreciated by the people of San Francisco. Up to that time the opportunity of enjoying the best in symphonic compositions was at the disposal of a few people in San Francisco, under the auspices of the San Francisco Musical Association. But when the City of San Francisco took over their responsibility and sponsored a series of concerts, headed by Mr. Hertz, we then realized that there was an opportunity of reaching people who never had the opportunity of hearing these great compositions before. And how soon they appreciated it and how quickly they were educated by Mr. Hertz is attested now by the fact that on every occasion on which Mr. Hertz presents his concerts at the Municipal Auditorium you will find that vast amphitheater filled to overflowing, such is the love of music by the people of San Francisco, Mr. Bloch. Now, you come into our midst as a great composer and bring us a composition that is peculiarly and essentially American. And how proud are we as Americans, and how proud are we as San Franciscans, to know that you will be a part of our citizenry, taking your place with us and helping us, with Mr. Hertz, in the great cause of music! Indeed, we are to be congratulated, Mr. Bloch, that you have decided to take your place with us and help us along in the great cause of music. (Applause.)

The Chairman: Mr. Havenner.

Supervisor Havenner: Mr. Chairman, before we conclude our consideration of this resolution, I think that it would be very desirable if we could hear from some one who is qualified to give us just a little intimate expert opinion of Mr. Bloch's new work, and I think that there is nobody better qualified than Dr. Hertz, who is with us today.

The Chairman: Dr. Hertz. (Applause.)

Dr. Hertz: I wish I would have had warning before I had this opportunity to speak before this wonderful gathering here. But I want only to say, in a few words, that I was very proud of serving as one of the judges at the contest "Musical America" offered. We had ninety-two scores offered for the contest, and by no means were they mediocre. There were some very outstanding works of exceedingly gifted composers amongst them. The average was far beyond any average which was offered in a similar contest before. There were ninety-two scores and still there was only one outstanding masterpiece among them, and my four fellow judges and myself we agreed unanimously on the choice of the new symphony of Mr. Bloch as the one outstanding masterpiece among the ninety-two compositions offered. And I am very proud of being here and being allowed to share the homage we are doing to this great master. I am proud of calling him a personal friend, and I think we will be mighty proud when the 20th of December comes when you all hear this work. This work, which as Mr. Bloch before said, was dedicated to America, the past, present and the future of America, that idea has been expressed in this work in the most magnificient way. It winds up in an anthem which, I sincerely believe, will be adopted by America in the future as the most wonderful expression of the unlimited possibilities in the future of America. And while at this time the Municipal Chorus is going to sing this anthem, I know that, in the near future, you all will join, without being asked, in this most magnificient expression of this great country of ours. I thank you. (Applause.)

Supervisor Havenner: Mr. Chairman, in conclusion, it seems very fitting that we hear from the chairman of the Auditorium Commit-

tee who has made the arrangements for the initial production of Mr. Bloch's work in San Francisco, Mr. McSheehy. (Applause.)

The Chairman: Mr. McSheehy.

Supervisor McSheehy: Mr. Chairman, members of the Symphony Orchestra that are here, including our honored guest, Mr. Bloch, whom I have never had the pleasure of meeting before, but whom I have heard a great deal of, I would simply say this: That I have followed Mr. Havenner and Mr. Hayden, Mr. Hayden, the father of municipal music, and Mr. Havenner who followed the footsteps of Mr. Hayden. And I am attempting and trying to follow the footsteps of both of those gentlemen, as chairman of the committee, by encouraging symphony, encouraging music, encouraging everything that means for the development of music in San Francisco. I happen to be, as was stated here a minute ago by Supervisor Colman, more or less of a hard shell order, sometimes called hard boiled, when it comes down to finances. But irrespective of what my reputation might be in that line, I have tried to be practical, and I am trying to be practical in every manner and form in reference to the management of the Auditorium. And I have realized that the seats in the Auditorium are not as comfortable as they might be, and today we are advertising for bids for from one to four thousand opera chairs for our Auditorium. Those bids will be receivable this week or next week, and in the very near future we will have not less than one thousand, and if our finances will permit, perhaps three thousand opera chairs, chairs that are commensurable to the comfort and the welfare of the music-loving people in San Francisco. I have tried to look at things from a practical standpoint. We are also trying to make arrangements for the erection of a new canopy. And we are trying to do everything we can, with the one thought in mind, and that is, to deveop music in San Francisco, because we realize what it means to the future of San Francisco. San Francisco before the fire had a reputation second to none in the United States, I might say. We all remember the old Tivoli and we remember how well the music lovers of San Francisco attended the concerts in that old theater on Eddy street, and we want to continue that, and we want their patronage here in San Francisco, whether they live in San Francisco or whether they live down the Peninsula.

Now, I can say this to you, Mr. Bloch, I am more than pleased that you are going to become a resident of San Francisco because I know what it will mean to our symphonies in reference to attendance and everything pertaining to it. And I want to say this, that I consult with Supervisor Hayden time in and time out in reference to the management of the Auditorium, and especially in reference to the concerts that are held there. And we are going along just as Supervisor Hayden has gone along, and we still consider Supervisor Hayden as the father of municipal music, and at all times we will continue to consult him and ask his good advice in that matter. And on behalf of the City of San Francisco I welcome you, and I hope that conditions in reference to the seats, in reference to the decorations and in reference to everything pertaining to the Auditorium will be perhaps better than they have been in the past. I thank you. (Applause.)

The Chairman: Anybody else desire to express themselves? Mr. Roncovieri.

Supervisor Roncovieri: Mr. Chairman: It has been said by someone, "I would rather write the songs of a nation than to write its laws." In this instance we are told by Mr. Hertz that a marvelous inspiring anthem concludes this masterpiece. I have this hope that that anthem may become the national song of this country. We all know the "Star Spangled Banner," and we reverence it and love it, and it is difficult to sing because of its tremendous compass. I have every hope, and I wish it with all my heart, that a hundred years from now that Supervisor Shannon has alluded will come as a glorious

tribute to Mr. Bloch, particularly for this anthem that he has written. And in a practical way, I would suggest, if not make a motion, that Mr. Hertz be given authority to employ as many musicians as may be required to carry out the ideas expressed on paper by Mr. Bloch. I know that a great work requires not only good musicians but many of them. I have no idea of the number that would be required. But I think this should be an exceptional concert, not a concert in the ordinary sense. This should be heralded to the world. Paris, London, the great centers of music should hear of this particular concert on the 20th of next month. They should hear of it through the musical newspapers that reach in every corner of the civilized world. I would want this concert, I repeat, to be heralded all over the world as one of the greatest that has ever been given in San Francisco, or the greatest, and that it has been composed by one of our own fellow citizens of San Francisco. I am very happy to greet Mr. Bloch as one of our San Francisco citizens. We will now be on the music map more than ever. And I trust that the Finance Committee, I repeat, will authorize Mr. Hertz to go the limit, if it takes 250 or 200 of the finest musicians—and we have some splendid artists in this City—to produce that work as the ideals of the poet musician exist in his mind, for he will no doubt be present at the rehearsals, so that the greatest expression that is possible, through the musicians, should be given to his work. So I suggest to the Finance Committe, or I will present it as a motion if the Finance Committee desire, that they permit Mr. Hertz to go the full limit to produce this work, so that the world will hear of it. Again I welcome Mr. Bloch in our midst. I trust that his life will be long and happy. (Applause.)

The Chairman: I think, Mr. Roncovieri, your suggestion can be taken care of by the Auditorium Committee. The motion before the house is the motion of Mr. Marks. If there is no objection, we will consider it carried. So ordered.

It has been a great pleasure, Mr. Bloch, to welcome you in the group of music-loving citizens that have accompanied you, and I assure you that we will all look forward with fond anticipation toward the 20th of December. Thank you very much.

Supervisor Hayden: Before Mr. Bloch goes, I would request that he be personally presented to each member of the Board by the chair.

The Chairman: Yes, it will be a great pleasure. Mr. Bloch wants to speak.

Mr. Ernest Bloch: I just want to thank you all once more, and I am more moved than I can say. You will allow me to add a few words: The greatest art is the art of living. We have not learned it yet. The most difficult art is the art of governing, as you know, And all that comes on account of this thing, human nature. Human nature is imperfect, we are all striving to make it better. The change of labels does not change very much, you realize when you have seen revolutions in countries that changed the labels but the people and the cities remained the same. The only change that may come is through the heart of man. When man's heart changes then humanity will change for the best. And music is one of the things that can help change the hearts of men. Without being musicians, you may ask me why, and I will tell you just that, that when we are in a concert—and no matter whether we are rich or poor, or whether our heads are higher in intelligence than that of a simpler man—all our feet touch the same earth, and when we hear that music, all our ears hear that same music and all our hearts are beating together. Thus we are no more separated, but united in one single ideal. In that sense music can do enormously for the improvement of the civilization of men. And I am delighted to see that the Board of Supervisors in this City has understood what an enormous asset music is. It is not a luxury, I do not believe in luxuries, but, as you say it so well, man is not living of bread alone, and we need spiritual nourishment. The more men believe the better it will be for them to be happy and

for you to govern them and help them get along together. I have always understood my mission as an artist just to help the best I could. I wrote this work, but without you I could not have been able to write it. I have been more happy in San Francisco than in any other place I have lived in the United States. (Applause.) I have found friends and devoted friends around me, amidst musicians, amidst nonmusicians, and you see I had friends that I did not know because I had you in the silence helping the cause of music, and who helps the cause of music helps me. Thus in that atmosphere, with a feeling of freedom, with a feeling of the beauty of the country and this beautiful city, with the desire that everybody has to make good, I felt inspired. And I must say I had struggled hard in America, and I had not always been happy, but in San Francisco, in spite of sickness and in spite of doubts sometimes—every man has them—I got back my great faith in America. And that is why you and this City made it possible for me to be just a humble little instrument to give vent to a great ideal. My whole symphony was built upon this anthem. I wrote the anthem first: "America, America, thy name is in my heart." This is the beginning of it. And the whole symphony was written with this anthem which points, not to the present because America is young, we want an America bigger and better and greater and an example to the whole world, and we can do it here in this City, we can start here. And that is the whole idea of the symphony. And I hope that when you feel it you will all feel that spirit, with only one single heart beating. (Standing applause.)

(Thereupon Mr. Bloch is presented to the members of the Board of Supervisors.)

Privilege of the Floor.

Mr. Phillips was granted the privilege of the floor and addressed the Board as follows:

Mr. Jos. Phillips (Right of Way Agent): Mr. Chairman and members of the Board of Supervisors, this matter first came up when I took up with the Spring Valley Water Company the acquisition of necessary rights of way for the Nineteenth avenue extension and Junipero Serra boulevard. Many times in the past in negotiating with the Spring Valley Company I have asked for the donation of any land that we neded, and particularly in our Hetch Hetchy project the water company has always agreed to my requests. In line with that, I asked for the entire donation of all the necessary lands required for

these two boulevards, and Mr. Eastman, the president of the company, said he would go part way with me under certain conditions. He said the streets in the district are 75 feet in width, and said, "You only have an easement on Junipero Serra boulevard for motor driven vehicles, and we will give you the fee for that 45-foot easement and additional land on that boulevard and also on Nineteenth avenue up to 70 feet in width, providing the City will agree to commercially zone the property fronting on Junipero Serra and Sloat boulevards." I told him that while he might look upon the City as one organization, that here in the hall we did not confuse those matters, but I would take it up with the necessary authorities. I spoke to Mr. O'Shaughnessy, the chairman of the Finance Committee, and the chairman of the Streets Committee, and they said the thing ought to go through on its merits without mixing the two items together. In line with that, the matter was submited to the City Planning Commission asking for zoning of this area of land fronting on Sloat and Junipero Serra boulevards, and it meant a great deal of opposition, particularly on the part of the St. Francis Home Owners' Association, represented by Mr. R. M. Searles, their president, and several other property owners. These people met with the Planning Commission and said if certain things were done they would withdraw their objections, and the plan has been revised several times. First it was discussed leaving the intersection of Ocean avenue extended across Junipero Serra boulevard in the commercial zoning, inasmuch as it was commercially zoned across the street, and keeping off Junipero Serra and Sloat for the balance of the distance. That finally was changed again by eliminating those two corners of Ocean avenue and Junipero Serra and leaving it with Nineteenth avenue zoned, but still keeping off of the boulevards. It finally came to this plan of keeping the commercial zoning entirely off of Nineteenth avenue. Now the company agreed not only in keeping off of the boulevards, but agreed to put in a 20-foot parking strip adjacent to the boulevard, install a private street of their own, install the sidewalk, and then 105 feet of land reserved for residential purposes, and back of that to be a commercial zoning. This met with everybody's approval in the Zoning Commission, but since that time there was one lady who was present at the commission and who offered no objection, who I believe has since sent letters to various members of the Board of Supervisors. The letters that you have heard read by Supervisor Hayden were drawn, I understand, by Mr. Searles, the attorney who is president of the St. Francis Home Owners' Association, and the company adopted that letter and signed and sent it down to your Board.

Supervisor Hayden: Couldn't these conditions be written into the deed?

Mr. Philips: It is a condition that Mr. Searles, as an attorney, said was all—or as far as the company should go. Of course, that is only a matter of good faith, and you can come in and make application to this Board and if the Board sees fit you can change the zoning. All that means in the letter is as a matter of good faith the company will not later ask for any commercial zone on either of these three boulevards, and then they will put that in the deed as a matter of good faith for the next purchaser. If the next purchaser should come in and as for the zoning that deed would be shown to him. It is merely a matter of good faith on the part of any succeeding owner.

Section 6. The lines at the intersecting streets and crossings along the line of march of such parade or procession are within one (1) block of said crossings and the intersections and said line shall be removed when the parade or procession has passed.

Bridge Matters.

Supervisor Havenner: A meeting has been called for tomorrow morning—I think all members of the Board were notified of it by letter—and the Senator, the Congressman, Mayor and Governor Young, I believe, is expected to be present, the City Engineer and City Attorney and members of the Board, to discuss the plan which has been at least tentatively discussed by representatives of the Board concerning the bill now pending before Congress to provide for the assignment of that permit, if it be received from Congress, to the State Highway Commission, which has made the suggestion that it be constructed and be financed by the State Highway Commission as a public highway over the bridge. This would involve the authorization by the State Legislature at its next session to the State Highway Commission to do this work and empowering them to issue bonds that would be payable wholly out of revenue and not be a charge against the State's credit. That meeting, at the suggestion of Senator Johnson and others, was arranged for tomorrow morning at 11 o'clock in the State Building, and I assume at that time we can discuss the general matter of what sort of representation the City of San Francisco should have in Washington when the bill is again presented.

Supervisor McSheehy: On that same subject I have here two letters that were addressed to this Board during the week.

The Chairman: Will you permit an interruption? I see that Judge Johnson is here.

* * * * * * *

Supervisor Havenner: I hope as many members of the Board as possible will come to the conference in the Governor's office in the State Building tomorrow at 11 o'clock. As most of you know, some time ago a conference was held with representatives of the State Highway Commission with the idea in view that the cause of the San Francisco Bay Bridge before Congress would be very considerably strengthened if the State of California could be made the sponsor, or at least a coproponent, of the application to Congress for this permit. The viewpoint was that San Francisco would never maintain a bridge to be the only highway entrance to this city across the bay as a money-making project, for we are not going to charge people for the privilege of coming into our city, and the theory of a publicly owned bridge would call for its amortization as rapidly as possible so that at the earliest possible date it might be made a part of the free public highway system of California. That is the ideal to which San Francisco as a city and also, I believe, the people of San Francisco are committed. They want a highway across the bay to bring people in here and to allow our people to go out at their pleasure. Therefore, as I see it, and as the other officials of the city who participated in that conference look at the problem, what is ultimately desired is a bridge of that character that will operate for the convenience of the outgoing and incoming public in San Francisco. Now it is proposed, therefore, that in view of the various objections that have been made to any further large scale extension of the municipal credit of San Francisco, that the State itself be asked to interest itself in this project, perhaps to sponsor it, and that an amendment be made to the present State law which governs the operation of the State Highway Commission that will enable that Highway Commission to construct this bridge and to finance it as the State of New York now, through its port authorities, finances bridges and tunnels, by the issuance of bonds which shall be payable wholly out of revenue. This plan was outlined in considerable detail to the head of the Highway Commis-

sion and his attorneys and engineers. They have been studying it for the past two months. They have represented to us privately that they are satisfied with their investigation; that they believe the plan is feasible; that they see no legal or constitutional objection to an amendment of the State law governing the operation of the State Highway Commission which would make this possible. The senior Senator from California, who so ably handled our bill in the upper House of Congress, and Mr. Welch, who handled it in the lower House of Congress, have both given their private assent to the plan. The newspapers have announced that the Governer of the State has been studying it, and that he is very favorably impressed. The head of the Highway Commission told me that he was of the opinion that the Governor would be able to be present tomorrow. The questions to be considered will be, first to hear from the Highway Commission and its attorneys as to the result of their study of this tentative plan. If they think the plan feasible and express themselves as in favor of it as a State institution—and I have been privately advised that they are in that position—then the question will be discussed whether San Francisco shall amend the bill now before Congress to provide either that the name of the State of California be substituted for the name of the City and County of San Francisco in the application for this permit, or whether the City and County of San Francisco shall remain the applicant and the amendment provide the right of assignment to the State of California. I believe personally that the prospects for obtaining this bridge across the bay are far greater today than they have ever been before. As the members of this Board know, Mr. Hoover, our next President, has on several occasions publicly and without restriction to the representatives of this Board of Supervisors, expressed himself as favorable to the official plan for a bridge across San Francisco Bay, the plan that was adopted by this Board upon the recommendation of our Commission of Engineers. He has publicly stated in our presence that he did not think that the objections of the Navy were meritorious enough to block the granting of this permit, and he has publicly stated that it was his intention to help the City of San Francisco in every way possible to obtain this permit. Now, that being the case, we are already virtually assured by every kind of legislative precedent that this bill can be passed through the Senate, because it passed with the unanimous recommendation of the Senate Committee. The bill is still in the committee of the House, but if the President of the United States, as I think we have a right to assume that he will do, will take a favorable attitude towards this legislation, then on the strength of my legislative experience in Washington I am willing to venture the prediction that it will come out of the House Committee, and that it will be passed through the House. Our position in Washington would certainly be strengthened if the State of California, the home State of the new President and its Governor, one of our strongest supporters, would appear in Washington and urgently advocate the passage of our bill. I believe that the prospects are extremely bright, and I believe that we should go ahead carefully and thoroughly consider this proposition. If we believe it to be to the advantage of the bridge project to the end of our obtaining permission to build this highway across the bay, we should proceed to make the necessary amendments and proceed to support the State administration if it decides to submit this legislation at the session of the Legislature next January. I am hopeful that the state administration will determine to make this an administration measure, and if it does I think it will be passed by the Legislature without delay. I think if the legislative authority is given to enable the State to act, and with the State administration behind us, that it is almost a certainty that we will win success in our application to Congress this year. I hope the members will see fit to be present in the morning.

Communications.

Supervisor McSheehy presented:

Communication, from A. B. C. Dohrman et al., urging that San Francisco-Oakland Bay Bridge be made adequate for transcontinental train service.

Also, *communication*, from Adolph Uhl, declaring that City will relinquish a distinct advantage if it permits the State to construct the San Francisco-Oakland Bridge.

Death of Former Mayor Eugene E. Schmitz.

His Honor the Mayor announced with regret the death of Eugene E. Schmitz, former Mayor of the City and County of San Francisco, and directed that the Journal of the Board record the fact of his demise.

The Mayor: Gentlemen of the Board and my fellow citizens, it is with very deep regret that I announce officially the passing away of a former Mayor of this city and also one of your colleagues, the Hon-

orable Eugene E. Schmitz. I think before we begin the active duties of this meeting that our minutes should record the fact that former Mayor Eugene E. Schmitz is dead. I was shocked to see in the headlines of the afternoon papers the news of his passing. That evening before going home I visited Mrs. Schmitz and conveyed to her the sympathies of all the members of this Board and of the Mayor at his untimely death. She naturally was heart-broken, as was the daughter who was present. She wishes me to extend to you her deep appreciation of the thoughts which you had for her husband and for the public servant that represented San Francisco on so many occasions. Her message of appreciation I give to each and every one of you now. I can remember well, after Senator Phelan had retired from active municipal life, the election of Eugene E. Schmitz, who for three consecutive terms was elected Mayor of this city. He was succeeded by Dr. Edward Robeson Taylor, then by the Honorable P. H. McCarthy, and then by your Mayor. Eugene E. Schmitz helped in the advancement of this city. He gave his time and gave his energy to San Francisco. He was a very popular man. He had a magnetism about him that attracted everyone to him. He was a life member of this Board of Supervisors, because every Mayor who has served the city has a seat upon the Board until he passes away, so the city has not only lost a former Mayor, but has also lost the experience and the courtesy and the kindly advice and the ever-faithful devotion to the upbuilding of San Francisco of a life member of the Board of Supervisors. As the Mayor of this city I can only pay a sorrowful tribute to his memory, and I hope that when this Board adjourns today that it will adjourn out of respect to him, sending to the widow and to the two daughters and to his brother their deepest respect, their kindest sympathies at the passing of former Mayor Eugene E. Schmitz and a life member of the Board of Supervisors.

Supervisor McSheehy: Mr. Chairman and members of the Board, eleven years ago next January Eugene E. Schmitz and myself took our seats as members of this Board of Supervisors. I served with him for eight years. I was his seat mate for eight years. Perhaps I saw as much of Eugene E. Schmitz during those eight years as any man on this Board. As you have well said, he had a personality that was unique, a magnetic presence that but few possess, and when you knew him you found in him a lovable character, found him one that was always seeking to help his fellow man. It was almost impossible for him to say no to one who sought his aid, and having that characteristic it is needless to say that he was often imposed upon. That was his failing, if it was a failing, but he could not help that, for it seemed to be a part of the wonderful personality that was his, and came perhaps from the deep and abiding generosity that he had for his fellow man. Like you, I feel deeply grieved here today at the death of Eugene Schmitz. He was a man who would go as far for a friend as one man could go justly for another, and here in San Francisco he had a host of friends. I move that when we adjourn here today we do so out of respect to the memory of our former Mayor and our former colleague, Eugene E. Schmitz, and that we engross and send to the widow a fitting expression of our sympathy; that you, Mr. Mayor, appoint a committee to carry out the purpose of the motion.

Supervisor Colman: I will second the intent of Supervisor McSheehy. I desire to say a word with respect to the memory of my former colleague. When I first came to the Board, through your appointment, seven years ago, Supervisor Schmitz was a member of the Board. He sat across the aisle from me for four years and we became very close friends. Mr. Mayor, I want to pay our late colleague this tribute: In those four years of fairly intimate contact regarding the city's business if Eugene E. Schmitz told you he was going to vote a certain way you could gamble on it, for he would vote that way, and his word was absolutely as good as his bond. And that is a very splendid position for a Supervisor or anyone else in public office to

take. I have tried to make it a rule to take people as I found them myself, and I found my association with Gene Schmitz to be of a very helpful character. I was new and he gave me good advice, sincere and honorable advice. Eugene Schmitz conducted himself upon this Board with ability, and his votes were of a constructive nature. Former Supervisor W. H. Harrelson requests me to say a word for him and to add a token of his respect, to express his regret at the passing of former Supervisor Schmitz. Also, I would like to have this letter read into the record (reading): "My dear Supervisor Colman: If an appropriate opportunity offers at the meeting of the Board today I shall be glad if you will add my word of eulogy to the many that will, undoubtedly, be voiced in memory of our former colleague, Eugene E. Schmitz, whose recent sudden death we all mourn; also to convey my sincere sympathy to the bereaved widow and family for the irreparable loss they have sustained. Four years of intimate association with one in public office are sufficient to accurately measure the character of that one. During my four years of association with Eugene Schmitz as a member of the Board of Supervisors I grew to like him exceedingly. He was at all times a gentleman, kindly, courteous and considerate. Among his other qualities I greatly admired his courage and fearlessness. What he had to say he uttered frankly and unafraid; one always knew exactly where he stood on any question, that it was his desire that everyone should be aware of this. Nor was he wont to modify any statement he made or position he took because of possible adverse criticism. In the passing of Eugene Schmitz San Francisco loses an interesting personality. His kindly smile and warm handclasp made the day brighter to all with whom he came into contact. He will be missed by very many friends, of whom I am glad to count myself one.

"Very sincerely yours,

"John A. McGregor."

I am glad to second the motion that has been made, and to add my word of sincere tribute to the memory of our departed colleague.

Supervisor Hayden: I am very sorry that I was not in the room when you paid a tribute of respect to the memory of a former member of this Board of Supervisors and a former Mayor of the City and County of San Francisco. I appreciate, however, what you might well have said, and most likely did say here, for I know that you realize the manner of man that he was. We who knew him intimately here and had contact with him as a member of the Board of Supervisors know full well that he was a man of experience in municipal law; that he knew the charter from cover to cover; that he was well versed in parliamentary law, well versed in the proceedings of the Board of Supervisors. We know he was a kindly man. We know he was a courageous man. We also know, as Supervisor Colman has said, that when he gave his word on any matter before this Board you could depend upon the fact that he would carry it out to the greatest extent. I heard Supervisor McSheehy make some reference to engrossed resolutions and that a committee be appointed to that effect, and I heartily concur with that idea, Mr. Mayor, because that would be an opportunity of placing before the family of our late Supervisor and former Mayor the feelings of this Board of Supervisors and the Mayor in regard to the passing of Eugene Schmitz. Indeed, Mr. Mayor, it is with a great deal of regret that we take this opportunity to reflect for one moment on the death of our former colleague, for especially we who have known him and associated with him on this Board can do naught but speak kindly of him.

The Mayor: It has been moved and seconded that when this Board adjourns today that it will do so out of respect to the memory of former Mayor Eugene E. Schmitz and life member of the Board of Supervisors. May I, therefore, with your permission, and at your request, order flowers from Golden Gate Park to be placed upon the vacant chair and upon the vacant desk of your former colleague and a

former Mayor of this City? It will please and touch the hearts of three sorrowful women and will help to heal the grief that is theirs, and make that dear sweet little nun feel that the prayers she has been offering for her father find still another voice in the kindly attitude of the people of this city and in the flowers they send from Golden Gate Park to him who served this city and county for so many years. If no objection, that will be the order, and the Board when it adjourns today will do so on motion out of respect to the memory of Eugene E. Schmitz. All in favor please rise. (All members of the Board stand.) It is unanimously adopted. I will appoint on the committee to draft the resolution Supervisor McSheehy, Supervisor Colman and Supervisor Hayden.

Supervisor Roncovieri expressed his sympathy and concurred in all that was said, and asked permission to take part in the preparation of a suitable memorial to Eugene E. Schmitz.

Presentation, Frank E. Edwards, Mayor of Seattle.

His Honor the Mayor introduced Mr. Frank E. Edwards, Mayor of Seattle, and Mr. James Creehan, Judge, of Seattle, who are visiting San Francisco.

Mayor Edwards addressed the Board and extended a very cordial invitation to Mayor Rolph and the Board of Supervisors to visit Seattle, and expressed the kindly feeling of the people of both communities for each other.

Judge Creehan also addressed the Board, expressing his appreciation of the visit and concurred with the remarks of Mayor Edwards.

Supervisor Gallagher responded, and extended a hearty welcome to the visiting officials from Seattle.

Supervisor Havenner was also heard and expressed, on behalf of the people of San Francisco, the most friendly feeling and appreciation of those of Seattle and Washington state, and referred to his recent pleasant visit there with a committee of the Board, and the many courtesies extended.

His Honor Mayor Rolph was excused from the meeting and Supervisor Shannon was called to preside.

Referred to Joint Committee.

Supervisor Havenner presented the following resolution, out of order, and moved suspension of the rules and its adoption:

Resolution No. ———— (New Series), as follows:

Whereas, by resolution, unanimously adopted on June 6, 1927, the Board of Supervisors is committed to the policy of withholding appropriations from funds resulting from sale of War Memorial Bonds until the official plans for the War Memorial have been approved by a majority of the duly constituted representatives of war veteran organizations; and

Whereas, by virtue of that resolution the Board of Supervisors has justly recognized as paramount the rights of the ex-service men and women of San Francisco, it being the deeds of such men, living as well as dead, that the War Memorial is intended to commemorate; and

Whereas, Charter Amendment No. 32, as approved by the people, provides for the appointment of a board of trustees to administer all matters pertaining to that War Memorial, and states: "The Mayor in making appointments shall give due consideration to the veterans of all wars in which the United States has engaged"; and

Whereas, Charter Amendment No. 32 invests in the Board of Supervisors the duty of confirming the appointments of all members of the board of trustees selected by the Mayor; now, therefore, be it

Resolved, That the Board of Supervisors respectfully urge and recommend that his Honor the Mayor appoint a majority of the members of the Board of War Memorial Trustees from that portion of the citizenry

of San Francisco as has seen service with the army, navy or marine corps in time of war; and, be it

Further Resolved, That the advice and counsel of the war veteran organizations, through the medium of the properly constituted representatives, be sought before said appointments are made, it being the opinion of the Board of Supervisors that every class or group of the people of San Francisco, with a confidence inspired by service in time of war, may look to such men for purposeful loyalty and unselfish devotion to San Francisco in time of peace.

Providing for Removal of Weeds From Streets, Sidewalks and Private Property, Etc.

On recommendation of Streets and Commercial Development Committee.

Bill No. 8755, Ordinance No. 8258 (New Series), as follows:

Declaring noxious or dangerous weeds growing upon the streets or sidewalks, or upon private property, within the City and County of San Francisco, to be a public nuisance, providing for their removal and destruction, and creating a lien upon the property fronting upon such streets or sidewalks or upon which said nuisance exists for the cost of abating the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. All weeds growing upon the streets or sidewalks or upon private property within the City and County of San Francisco, which bear seeds of a wingy or downy nature or attain such a large growth as to become a fire menace when dry, or which are otherwise noxious or dangerous, are hereby declared to be a public nuisance.

Section 2. Whenever any such weeds are growing upon any street or sidewalk or private property, the Board of Public Works shall report the same to the Board of Supervisors. The Board of Supervisors shall then, by resolution, declare the same to be a public nuisance. Said resolution shall refer to the street by the name under which it is commonly known, and describe the property upon which or in front of which said nuisance exists by giving the lot and block number of the same according to the Assessor's Block Book; and no other description of said property shall be required. Any number of streets, sidewalks or parcels of private property may be included in one and the same resolution.

Section 3. After the passage of said resolution, the Board of Public Works shall cause to be conspicuously posted in front of the property on which or in front of which said nuisance exists, at not more than one hundred feet in distance apart, notices headed "Notice to Destroy Weeds," such heading to be in words not less than one inch in height and substantially in the following form:

NOTICE TO DESTROY WEEDS.

Notice is hereby given, that on the ——— day of ————————, 19—, the Board of Supervisors of the City and County of San Francisco passed a resolution declaring that noxious or dangerous weeds were growing upon or in front of the property on ———————— street, in said City and County of San Francisco, and more particularly described in said resolution, and that the same constitute a public nuisance which must be abated by the removal of said noxious or dangerous weeds, otherwise they will be removed and the nuisance will be abated by the municipal authorities, in which case the cost of such removal shall be assessed upon the lots and lands from which or in front of which such weeds are removed, and such cost will constitute a lien upon such lots or lands until

paid. Reference is hereby made to said resolution for further particulars.

All property owners having any objections to the proposed removal of such weeds are hereby notified to attend a meeting of the Board of Supervisors of said City and County of San Francisco to be held (give date), when their objections will be heard and given due consideration.

Dated this ——— day of ————————, 19—.

BOARD OF PUBLIC WORKS.

By ————————————,

Secretary.

Said notices shall be posted at least five days prior to the time for hearing objections by the Board of Supervisors of the City and County of San Francisco.

Section 4. At the time stated in the notices the Board of Supervisors of the City and County of San Francisco shall hear and consider all objections or protests, if any, to the proposed removal of weeds, and may continue the hearing from time to time. Upon the conclusion of said hearing the Board of Supervisors, by motion or resolution, shall allow or overrule any or all objections, whereupon the Board of Supervisors shall be deemed to have acquired jurisdiction to proceed and perform the work of removal, and the decision of the said Board on the matter shall be deemed final and conclusive.

Section 5. After final action has been taken by the Board of Supervisors on the disposition of any protests or objections, or in case no protests or objections have been received, the Board of Supervisors of the City and County of San Francisco, by motion or resolution, shall order the Board of Public Works to abate said nuisance by having the weeds referred to removed, and the said Board of Public Works is hereby expressly authorized to enter upon private property for that purpose. Any property owner shall have the right to have any such weeds removed at his own expense providing the same is done prior to the arrival of the Board of Public Works to do the same.

Section 6. The Board of Public Works shall keep an account of the cost of abating such nuisance in front of or on each separate lot or parcel of land where the work is done by that department, and shall render an itemized report in writing to the Board of Supervisors of the City and County of San Francisco showing the cost of removing such weeds on each separate lot, or in front thereof, or both; provided, that before said report is submitted to said Board of Supervisors, copy of the same shall be posted for at least three days prior thereto in a conspicuous place in the City Hall of said City and County of San Francisco, together with a notice of the time when said report shall be submitted to the Board of Supervisors for confirmation.

Section 7. At the time fixed for receiving and considering said report, the Board of Supervisors shall hear the same, together with any objections which may be raised by any of the property owners liable to be assessed for the work of abating said nuisance and thereupon make such modifications in the report as they deem necessary, after which, by motion or resolution, said report shall be confirmed. The amounts of the cost for abating such nuisance in front of or upon the various parcels of land mentioned in said report shall constitute special assessments against the respective parcels of land, and as thus made and confirmed shall constitute a lien on said property for the amount of such assessments, respectively. Resolution No. 30032 (New Series), as follows:

Whereas, there is pending in the Senate of the United States Senate Bill No. 1762, introduced by Senator Hiram W. Welch of the Fifth Congressional District of California, each of which said

bills grant to the City and County of San Francisco the right to construct and maintain a bridge over the Bay of San Francisco from Rincon Hill in the City and County of San Francisco to a point near the South Mole of San Antonio Estuary in the County of Alameda, which said bridge is to be constructed in accordance with the report and plans prepared by Robert N. Resolved, That Honorable Hiram W. Johnson and Honorable Richard J. Welch be requested to offer an amendment to the bills introduced by them respectively in the Senate and in the House of Representatives of the United States, which said amendment shall provide that when a permit is granted by the Congress of the United States to the City and County of San Francisco to construct said transbay bridge, that the said City and County shall by the act of its Board of Supervisors have the right of transferring said permit to the State of California or to some governmental agency thereof; and be it

Relative to Meeting of Board of Trustees, War Memorial Buildings.

Supervisor McSheehy announced that there would be an open meeting in the chambers of the Board of Trustees of the War Memorial, at which time a report would be rendered as to the officers of the Board.

Motion.

Supervisor Gallagher moved that the Joint Committee on Auditorium and Public Welfare, to which a resolution, presented by Supervisor Havenner on war veteran representation on the Board of Trustees, be requested to report on said resolution.

Supervisor Andriano raised the point of order that the motion was out of order because contrary to the rules of the Board. When the resolution was presented to this Board a motion was made to suspend the rules for the immediate consideration and the motion was lost. Therefore, the resolution was referred to the Joint Committee and the rules give the committee thirty days to report.

The Chair ruled the point of order not well taken and the motion in order.

Supervisor Havenner said: "If no other member of the Board desires to speak, I desire, as the author of the resolution, to make a statement for the record: I think a rather unprecedented situation has been created here by the insistent remarks of certain members of the Board, and denying my own interpretation of the clear wording of this resolution. I think that it is a rule of parliamentary courtesy, in every legislative body, to accept the author's own statement that there is no hidden or extraneous meaning in the plain wording of the resolution or ordinance. More than a year ago I introduced in this Board of Supervisors a resolution committing this Board to the policy that none of

the bond moneys voted by the people for the War Memorial would be expended until such time as the plans for the buildings had been approved by a majority of the duly constituted representatives of the veteran organizations of San Francisco. That resolution was adopted by a unanimous vote. After the passage of No. 32 a number of representative war veterans of San Francisco spoke to me about the advisability of respectfully calling the attention of the Mayor to that policy of the Board of Supervisors, which is still of record, and respectfully suggesting to him that the new Board of War Memorial Trustees should be constituted of at least a majority of men who had seen service, either in the army, navy or marine corps during the war—men or women for that matter. At the time that I introduced my resolution, over a year ago, the controversy which has been injected into these proceedings over two of the gentlemen serving now on the unofficial War Board had never been raised. That resolution, of course, has nothing to do with any controversy of the American Legion or any other organization concerning the attitude of certain of its members. The resolution which I have just introduced is in entire keeping with the spirit of the former resolution. It would be absurd, I think, to endeavor to reduce the representation of war veterans on the new Board of War Memorial Trustees, while the Board of Supervisors, by unanimous vote, is committed to the policy that they must be consulted concerning the plans of these buildings before we ever vote an appropriation. My later resolution is absolutely in keeping with the former resolution, and was inspired by exactly the same motives. It had no relation whatever to any controversy in the American Legion or any other organization concerning the actions of any of the members of these organizations. I desire to go on record again as officially and formally repudiating the attempt to read into my resolution any other intent or purpose than the plain meaning and intent as conveyed by its wording. The resolution would not preclude the appointment of these two men, or any other men, over and above this majority prescribed or even included in that majority if the Mayor so saw fit. It would not preclude their appointment. It merely respectfully suggests to the Mayor a policy on the part of the Supervisors that we hope to be able to confirm a majority of the members of the new board as men who have seen service in the United States Military Service. That is the whole purpose of my resolution. Now, my objection to delay is not that I think there would be any inherent harm in it, but because I do not subscribe to the sufficiency of the argument for delay. It has been admitted here on this floor this morning that this public meeting, called by the unofficial Board, unofficially so far as the City and County is concerned, now handling the privately subscribed funds for the War Memorial, it has been admitted here that they will not, of course, discuss publicly the question whether there should or should not be a majority of war veterans on the new Board of Trustees. I do not think there is a single member of this Board who believes that—if he is using any common sense—that these gentlemen are going to permit that question to be discussed at this public meeting where they are going to report on their trusteeship, or that they are going to stand for the principle of recommending a policy to the Board of Supervisors concerning a resolution which is solely within the hands of this Board. I stated my reasons on Friday when the committee met, and I repeat them now, that the argument for delay has no merit whatever, and if this resolution should be allowed to come out of committee in the usual course, without delay, supported by an insufficient reason."

Whereupon, Supervisor Gallagher's motion was *adopted* by the following vote:

Ayes—Supervisors Gallagher, Havenner, Kent, McGovern, Marks, Powers, Roncovieri, Schmidt, Stanton—9.

Noes—Supervisors Andriano, Colman, Hayden, McSheehy, Shannon, Suhr, Todd, Toner—8.

Absent—Supervisor Deasy—1.

Notice of Reconsideration.

Supervisor McSheehy changed his vote from *no* to *aye* and gave notice that he would move for reconsideration.

Point of Order.

Supervisor Gallagher raised the point of order that there was a time limit in the resolution requiring that immediate reconsideration be voted, or the intent of the resolution would be defeated.

The Chair ruled the point of order well taken and the notice of reconsideration out of order.

RECESS.

Whereupon, the Board at the hour of 1:05 p. m. took a recess until 3 p. m.

J. S. DUNNIGAN, Clerk.

REASSEMBLED.

The Board of Supervisors reassembled at 3 p. m.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Andriano, Colman, Gallagher, Hayden, Havenner, Kent, McGovern, McSheehy, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner—17.

Absent—Supervisor Deasy—1.

Quorum present.

His Honor Mayor Rolph being absent, Supervisor Havenner was elected to preside.

Boys' Aid Society Trustees.

Supervisor Colman inquired as to the status of the matter of the appointment of trustees of the Boys' Aid Society, recently taken over by the City.

Supervisor Havenner replied that someone unauthorized had already selected and submitted names of seven trustees, to which action, as chairman of the Finance Committee, he offered objection, since the law provides that the selection and appointment must be made by the Board of Supervisors. He declared further that a majority of the list submitted consisted of women and that although he had no objection to the appointment of women, in this case, considering that the organization was entirely for boys, the majority of the trustees should be men. "Supervisor Gallagher and myself," he said, "are to have a conference this afternoon with Mr. John McGregor and the Welfare and Finance Committe will report the outcome to the Board."

Reception to Stanford Football Team.

Upon reconvening, *Supervisor Havenner* called attention to the overwhelming victory of Stanford University football team over the Army team in New York on Thanksgiving Day and declared that as a Stanford graduate he was very proud of their achievement. He said: "I think that the success of Stanford and the other two western teams has perhaps been the greatest 'ad' for the Pacific Coast during the past year, and I want, as chairman, the privilege of offering a motion that the homecoming of the Stanford team be made the occasion of a suitable reception at the hands of the City.

Supervisor Hayden announced that he had already prepared a resolution on the subject, which was thereupon presented:

Resolution No. 30061 (New Series), as follows:

Whereas, the Stanford football team, by its victory over the Army

team recently at New York City reflected great honor and credit on the State of California; and

Whereas, his Honor Mayor James Rolph, Jr., arranged for the New York police band to play in the Stanford section while the big game was in progress; and

Whereas, The San Francisco Bulletin has proposed that the victorious players be given a joyous home-coming welcome; now, therefore, be it

Resolved, That the Mayor and Board of Supervisors of this City give this occasion their official approval and that the Municipal Band assist in the greeting to be given them.

Adopted by the following vote:

Ayes—Supervisors Andriano, Colman, Gallagher, Havenner, Hayden, Kent, McGovern, McSheehy, Marks, Powers, Roncovieri, Schmidt, Shannon, Stanton, Suhr, Todd, Toner—17.

Absent—Supervisor Deasy—1.

Supervisor Hayden, seconded by *Supervisor Marks*, moved that a Committee on Arrangements of three members be appointed.

Motion *carried*.

Supervisors Shannon, Marks and Havenner appointed.

Supervisor Havenner suggested that appointment of a committee to act with the Finance Committee in finding a way for financing out of Publicity and Advertising Fund a proposition of holding champion East vs. West football contests in San Francisco as a matter of publicity for this City.

Supervisor McSheehy called attention to the successful presentation of the football game between Stanford and University of California at the Civic Auditorium recently under the auspices of the Auditorium Committee. Sherman & Clay was given credit for the idea, which Supervisor McSheehy said should be repeated each year.

Invitation Accepted, Pasadena "Tournament of Roses."

Supervisor Kent moved that the Board of Supervisors accept the invitation of the city of Pasadena to attend the next Pasadena "Tournament of Roses," and that the Publicity and Welfare Committee be authorized to make necessary arrangements.

Motion *carried*.

Report of Public Welfare Committee on Supervisor Havenner's Resolution Providing for Majority Representation of War Veterans on Board of Trustees for the War Memorial.

The following was read by the Clerk:

San Francisco, December 3, 1928.

Board of Supervisors, City and County of San Francisco.

Gentlemen: A majority of the members of the Public Welfare and Auditorium Committees, to whom was referred Supervisor Havenner's resolution relative to appointment by the Mayor of the Trustees for the War Memorial, recommends the adoption of said resolution by the Board.

Respectfully submitted,

MILO F. KENT.
ANDREW J. GALLAGHER.
F. R. HAVENNER.
F. J. McGOVERN.

Resolution.

Thereupon, the following resolution was presented and read by the Clerk:

Resolution No. 30102 (New Series), as follows:

Whereas, by resolution unanimously adopted on June 6, 1927, the Board of Supervisors is committed to the policy of withholding appropriations from funds resulting from sale of War Memorial Bonds until the official plans for the War Memorial have been approved by

a majority of the duly constituted representatives of war veteran organizations; and

Whereas, by virtue of that resolution the Board of Supervisors have justly recognized as paramount the rights of the ex-service men and women of San Francisco, it being the deeds of such men, living as well as dead, that the War Memorial is intended to commemorate; and

Whereas, Charter Amendment No. 32, as approved by the people, provides for the appointment of a Board of Trustees to administer all matters pertaining to that War Memorial, and states, "The Mayor in making appointments shall give due consideration to the veterans of all wars in which the United States has engaged"; and

Whereas, Charter Amendment No. 32 invests in the Board of Supervisors the duty of confirming the appointments of all members of the Board of Trustees selected by the Mayor; now, therefore, be it

Resolved, That the Board of Supervisors respectfully urge and recommend that his Honor the Mayor appoint a majority of the members of the Board of War Memorial Trustees from that portion of the citizenry of San Francisco who have been in service with the Army, Navy or Marine Corps in time of war; and be it

Further Resolved, That the advice and counsel of the war veteran organizations, through the medium of the properly constituted representatives be sought before said appointments are made, it being the opinion of the Board of Supervisors that every class or group of the people of San Francisco, with a confidence inspired by service in time of war, may look to such men for purposeful loyalty and unselfish devotion to San Francisco in time of peace.

Motion.

Supervisor McSheehy moved that the foregoing resolution be laid over one week.

Motion *lost* by the following vote:

Ayes—Supervisors Andriano, Colman, Hayden, McSheehy, Shannon, Suhr, Toner—7.

Noes—Supervisors Gallagher, Havenner, Kent, McGovern, Marks, Powers, Roncovieri, Schmidt, Stanton, Todd—10.

Absent—Supervisor Deasy—1.

Noes—Supervisors Andriano, Colman, Hayden, McSheehy, Shannon, Toner—6.

Absent—Supervisor Deasy—1.

Supervisor Shannon explained his vote by saying he voted *no* without prejudice.

Notice of Reconsideration.

Before the result of the foregoing vote was announced Supervisor McSheehy changed his vote from *no* to *aye* and gave notice that he would move for reconsideration at next meeting.

Motion.

Supervisor Gallagher moved suspension of the rules for immediate reconsideration.

Motion *lost* by the following vote:

Ayes—Supervisors Gallagher, Havenner, Kent, McGovern, Marks, Powers, Roncovieri, Schmidt, Stanton, Todd—10.

Noes—Supervisors Andriano, Colman, Hayden, McSheehy, Shannon, Suhr, Toner—7.

Merger of Golden Gate and Southern Pacific Ferries.

Supervisor Gallagher called attention to the proposed merger of the Golden Gate Ferry with the Southern Pacific and other ferries, and asked if the Public Utilities Committee was giving the matter any consideration. It was pointed out that in the franchise of the Golden Gate Ferry was a stipulation that no assignment of the franchise could be made without permission of the Board of Supervisors. Supervisor Shannon agreed that the Public Utilities Committee would give the matter consideration to the end that San Francisco's interests are protected. The Clerk was requested to get all the records in connection with the granting of the Golden Gate franchise and have them available for the committee when it meets.

Supervisor Havenner called to the attention of the Chairman of the Public Utilities Committee a published report to the effect that the Citizens Committee which handled the propaganda for Charter Amendment No. 24, granting an indeterminate franchise to the Market Street Railway Company, which was defeated at the recent election, was now taking active steps to perpetuate itself and it is rumored that plans are on for resubmission of the proposition before the Legislature adjourns. The announcement says the Citizens Committee is to continue for the education of the public. He suggested that the Board of Supervisors consider the appointment of a committee for the purpose of educating the public on the merits of municipal ownership.

Anthem "America."

On suggestion of Supervisor Havenner, the Clerk was authorized to have the score of the anthem "America" printed with the transcript of the tribute recently paid in the Board to its author, Ernest Block.

"J. S. DUNNIGAN Clerk.

"Approved December 7, 1928.

"JAMES ROLPH, JR., Mayor."

The Lieutenant Commander was met at the Ferry by a representative of the Red Cross and by a representative of the Mayor's office, and today he is here by our invitation so that he might be presented to you, and you, in turn, show your appreciation of his wonderful work in the nation. The Lieutenant Commander was born in the City of San Francisco. He is a product of our public schools, he is a graduate of the Pacific Heights School and the Cogswell Polytechnic School. He graduated from the United States Navy in 1913 and he has not been back here in San Francisco since that time, over fourteen years. But during that time Lieutenant Commander Bryan has distinguished himself as an officer of the Navy. He rendered heroic service to our country during the World War in the city of Odessa, and later, in 1927, he received the life-saving medal of honor from the Treasury Department for rescuing a comrade who was at the point of drowning. And now he is here in San Francisco on his way to take a command in China. Mr. Bryan, we welcome you home to San Francisco as one of our native sons of San Francisco, as one of our citizens. You know too well the reputation of San Francisco in so far as the Navy is concerned. It is safe to say that San Francisco is the favorite port of the officers and men of the United States Navy. On one occasion I heard a distinguished Admiral say that the two cities loved around the world as the favorite cities of the United States Navy were Shanghai and San Francisco. A few years ago you well

remember when the Atlantic Fleet was transferred to the Pacific to take its place on these shores, led by Admiral Bob Evans. San Francisco at that time turned out en masse and gave them a reception they have never forgotten. And later another mightier armada was again welcomed in the way for which San Francisco is well known. And on all these occasions, Lieutenant Commander, San Francisco always extends a welcoming hand to the officers and men of the United States Navy. We know that they all appreciate San Francisco, and we appreciate them. You come here as one of our own, and we are glad to know of the service that you have rendered the Navy and your country, and while I am thinking of those representatives of the Navy that were born in California, and of whom we have reason to be justly proud, I want to recall to the members of this Board, and to the Lieutenant Commander, the memory of Rear Admiral Vogelsang. On an occasion when he came here with a midshipman's fleet, and as a son of California, we gave him a public reception in the rotunda of this City Hall, showing that we at all times appreciate the work of our native Californians.

You are here today, Lieutenant Commander, as a guest of the City of San Francisco, and that is an honor that is due you, and I am glad to have this opportunity, after the expressions that I have just made as to your nativity, and as to your heroic service in the United States Navy, I am glad to have this opportunity, Mr. Chairman, through you, of presenting Lieutenant Commander Hamilton Vose Bryan to our colleagues and member of the Board of Supervisors. (Standing applause.)

Lieutenant Commander Bryan: Your Honor, Mr. Chairman, and gentlemen of the Board: I want to thank you very, very deeply for this honor you have given me, and tell you how very much I appreciate coming back to San Francisco and having such a welcome expressed and being able to come before you gentlemen and hear the words of one of your members, such kind words, that it makes me feel so thoroughly at home. The only unfortunate thing that I have to recall is that during the last fourteen years I have been unable to have duty in San Francisco. The ways of the service ordered me abroad, South America and the Near East, and so it was impossible, as things worked out for me, to be ordered here. After my China cruise it is my wish and hope that I can be with this fleet here and be back among my friends in San Francisco. There is no place in the world like San Francisco, and wherever I have been and met people from here or had contacts with its newspapers and letters from my friends, it always brought back the same memories that I had when I was a boy in the city. And I feel exactly that way now. It is my home and I love it and always will. Thank you very much. (Applause.)

The Chairman: I am going to ask Supervisor Colman to respond to the Lieutenant Commander.

Supervisor Colman: Mr. Chairman and Lieutenant Commander Hamilton Vose Bryan, colleagues and fellow citizens: We are very proud to welcome you, particularly as one of our own. When a San Franciscan, by his own efforts, covers his name with glory, some of that glory belongs to his native city. So we share a pride in your achievements, and I might say, in honoring you today, we are very happy that, at the same time, we honor your charming mother, Mrs. Prentiss Cobb Hale, a San Francisco lady who always finds time to take part in every activity for the advancement of San Francisco, and a lady who, after the war, always had time to do things for ex-service men, no doubt on account of her son. I am sure the people of San Francisco will follow your career with affectionate interest. And speaking for my colleagues, as well as for the people of San Francisco, we wish you happiness and success. (Applause.)

On motion of Supervisor Suhr, the foregoing was *ordered transcribed and a copy sent to Lieutenant-Commander Bryan.*

NOTICE OF RECONSIDERATION.

The following resolution was taken up on notice of reconsideration given by Supervisor McSheehy at last meeting:

Van Ness Avenue Extension. (On clip.)

Resolution No. ———— (New Series), as follows:

Whereas, on November 8, 1927, a bond issue of $500,000 was carried for the extension of Van Ness avenue from the vicinity of Mission street and Twelfth street, extending southerly to Howard street and Thirteenth street, or the most feasible route or routes, approximate length one-sixteenth (1/16th) of a mile, with 125 feet; and

Whereas, on October 8, 1928, Plan No. 8332 was submitted by the City Engineer for the extension of Van Ness avenue from Mission street to Howard street and the same failed of approval by this Board on said date wholly on account of the prohibitive cost; and

Whereas, the widening of Twelfth street on both sides to a width of 125 feet, as per plans made a part hereof, can be executed and completed for the sum of $200,000, thereby effecting a saving of $300,000.

Resolved, That this plan be adopted and that the sum of $200,000 be set aside out of the Van Ness Avenue Extension Bond Fund, which

will effect a saving of $300,000 to the taxpayers of the City and County of San Francisco.

Resolution No. ———— (New Series), as follows:

Whereas, debate of the extension of Van Ness avenue has developed many new facts as to its potential usefulness; and

Whereas, the creation of Howard street into a main boulevard is ultimately necessary as a result of the Van Ness avenue problem; and

Whereas, there must be a solution of the traffic problem at the southern end of Howard street by the creation of new streets to connect with the Bay Shore boulevard to the east and the Bernal Cut to the west; now, therefore, be it

Resolved, That the City Engineer be instructed to prepare plans and estimates of the cost of acquisition of necessary lands, construction and completion of a greater Howard street boulevard, from a point at Mission and Van Ness avenue, extending southerly and connecting with the Bay Shore boulevard to the east and Bernal Cut to the west.

Joint Committee to Report on Plans for War Memorial Buildings.

Supervisor McSheehy presented:
Resolution No. 30103 (New Series), as follows:
Whereas, at a public meeting of the War Memorial Trustees, held in the Board of Supervisors' chambers December 6, 1928, after a complete discussion by the trustees and others of the proposed plans, etc., it appeared that there was dissatisfaction among the veterans of all wars as to these plans; and
Whereas, it is advisable that this work proceed at the earliest possible date, and to that end these differences be harmonized, if possible; therefore, be it
Resolved, That a committee of three members of this Board be appointed by the chair to serve with a joint committee consisting of his

Honor the Mayor, three representatives of the present Board of War Memorial Trustees and three representatives of the veterans' organizations of San Francisco to study the differences that have arisen over the plans for the War Memorial project, and report to this Board any suggestions as to a solution of the problems involved; and be it

National High School Football in San Francisco.

The following resolution was presented by Supervisor McSheehy and *refused passage* by the following vote:

Resolution No. ———— (New Series), as follows:

Whereas, on Thanksgiving Day, November 29, 1928, at Kezar Stadium, before 50,000 people, the Lowell High School football team won the championship of San Francisco for the third consecutive time.

Whereas, in Chicago, on the 8th day of December, 1928, the Tilden Technical High School football team won the championship of that city; and

Whereas, the Tilden Technical High School have stated that they will come to San Francisco and play the Lowell High School in the Kezar Stadium on the 22d day of December of this year, provided there is a guarantee that their expenses will be paid; and

Whereas, from the interest expressed by the people of San Francisco in attending the Lowell-Polytechnic High School championship football game in such numbers on Thanksgiving Day of this year, it is to be expected that the same interest will be manifested by the citizens of San Francisco in attending this contest between the champion high school of Chicago and the champion high school of San Francisco; and

Whereas, at a meeting of the Board of Education, to be held on December 11, 1928, at 4 p. m., their approval will be requested for this game, and from all that I can learn from both the faculty and the students, it appears certain that the request to hold the game will be granted; and

Whereas, this contest will have for its purpose the establishing of a precedent that will mean the holding of a high school football championship game between a high school of the East and a high school of the West annually in our own Kezar Stadium that will seat 65,000 people, and will, in a most forcible manner, demonstrate to the people of the East the wonderful climate that we have here.

Resolved, That this Board sanction the holding of this game and the Public Welfare Committee be requested to set aside the sum of $7,000 out of the Publicity and Advertising Fund as a guarantee for the expense of bringing this team from Chicago to San Francisco and that said sum so guaranteed be repaid to the Public Welfare Committee from the receipts of said game.

NOTICE OF RECONSIDERATION.

The following matter, laid over on notice of reconsideration given by Supervisor McSheehy, was taken up:

Van Ness Avenue Extension. (On clip.)

Resolution No. ———— (New Series), as follows:

Whereas, on November 8, 1927, a bond issue of $500,000 was carried for the extension of Van Ness avenue from the vicinity of Mission street and Twelfth street, extending southerly to Howard street and Thirteenth street, or the most feasible route or routes, approximate length one-sixteenth (1/16th) of a mile, with 125 feet; and

Whereas, on October 8, 1928, Plan No. 8332 was submitted by the City Engineer for the extension of Van Ness avenue from Mission street to Howard street and the same failed of approval by this Board on said date wholly on account of the prohibitive cost; and

Whereas, the widening of Twelfth street on both sides to a width of 125 feet, as per plans made a part hereof, can be executed and completed for the sum of $200,000, thereby effecting a saving of $300,000.

Resolved, That this plan be adopted and that the sum of $200,000 be set aside out of the Van Ness Avenue Extension Bond Fund, which will effect a saving of $300,000 to the taxpayers of the City and County of San Francisco.

The following were read by the Clerk:

December 14, 1928.

Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen: The eleventh hour proposal to change the course of

the extension of Van Ness avenue to Howard street was discussed by a representative meeting of the Mission Street Merchants Association, property owners, business and professional men, which emphatically, for the second time, went on record in favor of the original plan as adopted by the voters at the election in November, 1927.

The extension as carried by the voters after due consideration will be of greater benefit to the entire City of San Francisco and in the last analysis will be less costly and hazardous than the alternate plan, which will necessitate the construction of a bridge over or else an underpass under the net work of railroad tracks which cross Twelfth street.

The Board of Supervisors, after careful and lengthy analysis and consideration, presented this first plan to the voters at the bond election in November, 1927, and recommended its adoption. This plan was carried and thereby become a mandate which should be respected and not ignored. In addition the Association also believes the expert knowledge of the City Engineer's Department should be given the greatest consideration.

The Mission Street Merchants Association therefore requests the Board of Supervisors to at once put through its original intention and extend Van Ness avenue to Howard street.

Very truly yours,

MISSION STREET MERCHANTS ASSOCIATION,
Gus Lachman, President.

The Hon. Board of Supervisors, City and County of San Francisco, City Hall, San Francisco, Calif.

Gentlemen—Re Van Ness Avenue Extension:

At a special meeting called for the purpose, the Valencia Street Association has unanimously gone on record in favor of the original plan, as adopted at the election of November, 1927.

After a careful analysis of the entire situation, the plan as originally proposed by the City Engineer was considered by far the most logical, economical and desirable, due to a number of reasons. The alternate plan, calling for the widening of Twelfth street, as proposed by Supervisor McSheehy, would necessitate the construction of a bridge or underpass at the railroad track crossing at Twelfth street. It would necessitate a goose-neck angle at Twelfth and Mission, which is held highly undesirable, and when all of the details were taken into consideration, the saving in the estimation of the Committee, and based upon the expert knowledge of the City Engineer's office, would be negligible in comparison to the greater benefits, greater efficiency and greater beauty of the original plan.

We trust you will not be swerved from the original decision to run the Van Ness avenue extension in a straight line from Market diagonally to Howard street.

Respectfully yours,

VALENCIA STREET ASSOCIATION,
By Fred Braun, Secretary.

Communication From City Attorney in re Claim of Benton C. Fremont et al. to Lands at Black Point, Also Known as Point San Jose, and Now Occupied by United States Government as Fort Mason Military Reservation.

The following was read by the Clerk:

December 15, 1928.

Honorable Board of Supervisors, San Francisco, Cal.

Dears Sirs: Your Honorable Board has asked me to report upon the above matter to the end that you may give proper consideration to the request of Mr. Benton C. Fremont that the claim made by himself and other descendants of the late General John C. Fremont may be acted upon by the Congress of the United States.

The lands in question are embraced within the area bounded by Bay street, Van Ness avenue, Laguna street and the waters of the Bay, and comprise some fifty-five acres. Prior to the year 1863 these lands, together with adjoining lands, were owned and occupied by various individuals and held as private holdings. Among the owners was Jessie Benton Fremont, the wife of General John C. Fremont, who owned Lots Nos. 4 and 5, Block 106, Lots 2 and 3 of Block 107, Lots 1, 2 and 3 of Block 108, and Lots 1 and 2 of Block 178 of the Western Addition.

Another owner was Leonidas Haskel, whom it is claimed owned (and I believe that the claim is correct) Blocks 181, 182, 183, 174, 175, 176 and 103, the south one-half of Block 177, the south one-half of Block 109, the south one-half of Block 106, 2 lots in Block 110, and a small corner in Block 180 of the Western Addition. The Haskel interests are now represented by Mr. Benton C. Fremont.

Among other owners were George Eggleton and Emile Grisar, who claimed to own the south one-half of Block 105, Western Addition.

The lands occupied by the persons above mentioned comprise all of the property now occupied by the Military Reservation known as Fort Mason, with the exception of two blocks bounded by North Point, Jeffer-

son, Gough and Franklin streets, which was in the laying out of the Western Addition blocks reserved as a public park, as were many other squares in that addition to the city. While records are not available the maps of the period show the last mentioned lands designated as Alcatraz Park. I have no doubt but that the title to this park was vested in the city.

Records are not available to show just what possession the various owners of the above described property had. Mr. Benton Fremont advises me that General Fremont and his family resided upon the lands above described claimed to have been owned by Mrs. Fremont, and had improved their holdings, for which they had paid $42,000, to the extent of some $40,000 worth of improvements, and Leonidas Haskel and his family resided upon the property which the Haskel heirs now claim.

On October 3, 1863, the United States military authorities at San Francisco, acting under the direction of the Secretary of War, and as a military measure made necessary by reason of the existing war, took possession of a tract of land embraced in a semi-circle with a radius of eight hundred feet, drawn from the outermost portion of Black Point. The lands embraced in the semi-circle included not only the present Fort Mason Reservation, but extended northerly to the southerly line of Chestnut street, easterly to the corner of Hyde and Jefferson streets and westerly to Webster street. I am advised that all occupants of the property within the semi-circle mentioned were removed from their holdings and the property was occupied by United States military forces immediately following October 3, 1863, and that this occupation continued until July 1, 1870. At the time that the property was occupied by the military forces, General Fremont was in active service, but those occupying his home were actually evicted thereafter.

On July 1, 1870, the Congress of the United States passed an act, dealing with all of the lands taken as above mentioned. The portions of the act pertinent to the instant case reading as follows:

"That all right and title of the United States to the military reservation in the City and County of San Francisco, in the State of California, known as the Point San Jose Military Reservation, be and the same is hereby relinquished and granted to the City and County and to its successors for the uses and purposes as follows: First, to maintain all streets and alleys now laid out upon the official map of the City and County. Second, and then in trust to grant and convey the remainder of said lands to the parties severally who are at the date of the passage of this act in the actual bona fide possession thereof by themselves or their tenants, and in such parcels as the same are so held and possessed by them, or who if they have not such possession, were deprived thereof by the United States military authorities when they went into possession of such military reservation, or who were dispossessed thereof by intruders of or trespassers against whom possession may be recovered by legal process."

By the terms of the act mentioned the portion of the military reservation which is at the present time occupied by the Government, i. e., the present Fort Mason Reservation, was excepted from the operation of the act and retained by the Government.

Subsequent to the passage of the act above mentioned, all of the lands taken by the military authorities in 1863, with the exception of the present Fort Mason Reservation, were returned to the various owners in conformity with the provisions of the act.

I have not had opportunity to make any investigation regarding the record title to the property heretofore claimed to have been occupied by Mrs. Fremont, Leonidas Haskel, Eggleton or Grisar, with the exception that there has been submitted to me a report of the California Title Insurance and Trust Company, under date of September 18, 1901, certifying that on the 2d day of October, 1863, the title of the property above described, as having been occupied by General and Mrs. Fremont, was vested in Mrs. Jessie Benton Fremont, free and clear of all incumbrances.

This land as well as the other lands within the semi-circle occupied by the Government was within the limits of the four square leagues of land to which the Pueblo, or village of Yerba Buena, the predecessor of the present City of San Francisco, was entitled to under the Spanish and Mexican law, and with the merging of Yerba Buena into San Francisco, the latter city succeeded to the rights of the former to these lands.

Shortly after the acquisition of California, the United States established a Board of Land Commissioners to pass upon all claims to the lands in San Francisco held by virtue of Spanish or Mexican grants, or otherwise. In 1852 San Francisco presented to the Commission her claim for the four square leagues to which she succeeded from the Pueblo. The Government appeared in the proceeding but made no claim to Point San Jose or the lands adjacent thereto. In 1854 the Commission announced its decision confirming the claim of San Francisco to practically all of the lands claimed, including Point San Jose and the adjacent lands. Shortly after this confirmation the Supreme Court of California, in Norton vs. Hyatt, gave expression to the following language:

"The confirmation of the city title by the United States Land Commissioners and the dismissal by the Attorney-General of the appeal taken from their decision, has settled that no title to lands within the limits of that city can hereafter be acquired from the United States."

Basing its action upon this decision, the City disposed of a great portion of the Western Addition, including lands on Point San Jose, to private owners, and created Alcatraz Park and other parks in this particular addition. Many of these titles were afterwards confirmed by the Van Ness Ordinance, passed by the City in 1855. While I have not the opportunity of examining the record of Mrs. Fremont's title, the fact that the California Title Insurance and Trust Co. has certified it as being good, leads me to believe that it was confirmed, either to her or to her predecessors, under the ordinance.

In a personal and unofficial letter, under date of December 14, 1895, addressed to Mrs. Fremont by Honorable Stephen J. Field, former Chief Justice of the Supreme Court of California, and at that date an Associate Justice of the Supreme Court of the United States, relative to her claim to lands in question, Judge Field said: "At different times I expressed to General Fremont my opinion as to the equity of his claim and the duty of Congress to compensate him for his loss, occasioned by the Government taking the property he claimed, and I shall express the same opinion whenever I am properly called upon for it."

On different occasions, in the Senate of the United States, and in the House of Representatives, bills have been favorably reported granting to Mrs. Fremont relief for the taking of her property, but the bills failed to receive the approval of both houses.

On February 10, 1893, a bill passed the Congress directing the Court of Claims to adjudicate the claim of Mrs. Fremont, but the court held the Act unconstitutional without going into the merits of the case.

On February 14, 1901, the Senate of the State of California memorialized the Congress of the United States to take favorable action on Mrs. Fremont's claim.

From the above it would appear that it was both officially and unofficially recognized that Mrs. Fremont had some claim against the Government for the taking of her property.

Conclusions: From the foregoing it would appear:

(a) That Mrs. Fremont was in possession of certain property at Black Point on October 3, 1863, and that, according to the report of the California Pacific Title and Trust Company, her title thereto was good.

(b) That on that date Mrs. Fremont and other occupants of property situate on Black Point were ordered to vacate their properties by

the military authorities of the United States, who took possession of the same for military purposes.

(c) That Mrs. Fremont was not compensated for the taking of her property.

(d) That pursuant to the Act of Congress of July 1, 1870, a considerable portion of the property occupied by the military authorities in October, 1863, has been returned to those who owned it on that date, but that the property formerly occupied by Mrs. Fremont, Haskel, Eggleton, Grisar and the City was excepted from the provisions of the Act.

(e) That the right of the United States Government to the property which was returned to the former owners was identical with its right to the property of Mrs. Fremont, Haskel, Eggleton and Grisar, and if these persons were included in the Act, it, too, would have returned.

(f) That the title of the United States Government to Alcatraz Park was no stronger than to any of the other property occupied in 1863, and this property would have been returned to the City if it was included in the provisions of the Act of July 1, 1870.

Mr. Benton Fremont's Request.

Mr. Benton Fremont is the grandson of General John C. and Jessie Benton Fremont, both of whom are long since dead. He intends to ask the Congress to enact a bill similar to the Act of July 1, 1870, ceding to San Francisco the property now occupied by Fort Mason, to be by the City granted to those who were the owners thereof on October 3, 1863. He has expressed a willingness to permit the City to acquire at a reasonable price any or all the property which he or the other heirs of General Fremont, or the heirs of Leonidas Haskel, may receive should such a bill be enacted. His desire is that the Board of Supervisors should by suitable resolution petition the Congress to pass such a bill, for the reason that if the bill affording him relief is not endorsed by Municipal or State authority, in all probability the matter will be referred to the Court of Claims, and even if that tribunal should act favorably upon it, all he could expect to receive was a monetary compensation based upon the value of his family's property at the time it was taken, together with interest on that amount from the date of the taking.

While efforts were from time to time made by General Fremont, and after his death by his widow, for the return of her property, or for compensation for its taking, these efforts were not concluded, for the reason that General Fremont was in active military service almost to the time of his death, and his two sons, who afterwards took up the cause for their mother, were engaged in like service, one in the Army and one in the Navy, and much of their time was spent on duty absent from the United States, hence their claimed inability to prosecute the claim. While these facts are given by Mr. Benton Fremont as a reason for permitting the claim to remain dormant since his mother's death, they are not sufficient to prevent the statute of limitations from having run against the claim, and the only way that relief can now be granted is by Congressional action.

I understand that the claim of the Government to the Fort Mason Reservation is based upon an executive order issued by President Fillmore in 1851, reserving from the public lands of California a certain one hundred acres of land for military purposes, and that Black Point was a portion of this tract. This order was, however, never proclaimed, nor was it ever filed in the land office in California, and was for many years looked upon as of no effect, and the land covered by it was allotted to private owners. In 1867, however, the Supreme Court of the United States held the order valid, and that those who occupied this land did so without right. The Act of July 1, 1870, was the result of this decision, which restored to the original owners practically one-half the acreage affected by the executive order of the President. Mr. Fremont's contention is, that his predecessors were

as much entitled to relief from Congress as those who obtained it in 1870, as the same facts pertain in both instances.

There are many other facts relative to the matter which have come under my observation, but I refrain from adding to this already very lengthy report, as they neither change the facts reported or the conclusions reached herein.

Mr. Fremont has submitted to me the enclosed resolution, asking that I transmit it to your Honorable Board, with his request that it be adopted, as he believes, as I have said, that its adoption will be of material assistance to him in having the Congress pass upon the merits of this claim.

Sincerely,

JNO. J. O'TOOLE,
City Attorney.

San Francisco, December 15th, 1928.

Honorable Board of Supervisors, City Hall, San Francisco, California.

Gentlemen: Confirming a statement made by City Attorney John J. O'Toole, in a letter under this date addressed by him to your Honorable Board relative to the claim to be made to the Government of the United States by myself on behalf of the heirs of General John C. Fremont and the heirs of Leonidas Haskel for the restoration of certain lands now occupied by the Government as the Fort Mason Military Reservation, which statement is to the effect that should these lands be restored I would be willing to permit the City to acquire them for public purposes at a reasonable price, I will state: That should these lands be restored, I will permit them to be appraised by three disinterested appraisers, and will accept from the City for said lands, or such portion thereof as the City may desire to acquire, the price fixed by said appraisers, less a discount of five per cent. And if Alcatraz Park should be restored to the City, I will exchange with the City, area for area, for Alcatraz Park, a sufficient amount of land around the entire bay frontage of the property now occupied by the United States Government for the Fort Mason Military Reservation, to enable the City to slope the sides of the reservation for use as park purposes, it being understood that none of the flat land shall be taken for this purpose. Should the area required for this purpose differ from the area of Alcatraz Park, difference to be paid by either party at appraised price.

This offer is contingent upon its acceptance within six months from the date of title being finally confirmed in claimants to lands above mentioned.

BENTON FREMONT, Personally.

And as attorney in fact: S. A. Fremont, Capt. John C. Fremont, Juliet Hull, Jessie Benton Fremont, the heirs of Leonidas Haskel.

Motion.

Supervisor Stanton moved the suspension of the rules and the consideration of the foregoing matter.

No objection.

Privilege of the Floor.

Whereupon Benton Fremont and City Attorney Jno. O'Toole were granted the privilege of the floor and were heard relative to the foregoing matter.

Adopted.

Thereupon the following resolution was *adopted*:

Resolution No. 30107 (New Series), as follows:

Whereas, the City and County of San Francisco, as the successor of the Mexican Pueblo known as Yerba Buena, and afterwards San Francisco, became entitled to the pueblo lands belonging to the said pueblo,

and thereafter by ordinance duly and regularly passed (known as the Van Ness Ordinance) granted to the respective parties in possession at a given date title to certain portions of said land; and

Whereas, a part of said lands so granted consisted of the area of about 100 acres embracing the present site of Fort Mason and lands contiguous thereto west of Van Ness avenue; and

Whereas, thereafter the Supreme Court of the State of California validated the said Van Ness Ordinance and confirmed the titles thereunder; and

Whereas, the grantees of said city, holding the title of said city to such lands, and their successors in interest, improved many parts of the said property and were in possession thereof in undisputed claim and right; and

Whereas, the City of San Francisco reserved two square blocks of said pueblo land for a park, known as Alcatraz Square; and

Whereas, in 1863 the Secretary of War directed the Commanding General at San Francisco to take possession of said 100 acres and fortify the same in whole or in part as a war emergency measure in anticipation of privateer attack on San Francisco, and in pursuance of said direction the occupants of said 100 acres of land were dispossessed by the military authorities without compensation and as a war emergency, and referred for relief to Washington; and

Where, the dispossessed owners, subsequent to the war, appealed to Congress for relief, and thereafter Congress, by an act passed in 1870, restored about 50 acres of said land to the owners thereof, but no relief was given to the other grantees of said city, though entitled thereto; and

Whereas, it is to the interest of the City of San Francisco that the areas involved should be restored to the rightful owners to be made the site of homes, and the City should repossess itself of said Alcatraz Square, and enlarge its park areas if the City so desire; and

Whereas, the State of California did, on February 14, 1901, after a careful investigation of the facts and records, memorialize the Congress of the United States to exact relief legislation for the benefit of Mrs. Jessie Benton Fremont; now, therefore, be it

Resolved, That the City and County of San Francisco, through the Board of Supervisors thereof, do hereby respectfully memorialize the National Congress to enact the proper legislation like unto that of said Act of 1870 restoring the balance of said land to the parties entitled thereto or their successors in interest; and

Resolved Further, That the Mayor and the Clerk of this Board send a copy of this resolution to the Honorable Hiram W. Johnson and the Honorable Samuel M. Shortridge, United States Senators from California, and to the respective Congressmen from California, with the request that they cooperate in all proper ways to the securing of such legislation.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Relative to Appointment of Congressman Richard J. Welch as Golden Gate Bridge Director.

The following matters were read by the Clerk:

Washington, D. C.

Supervisor Warren Shannon, City Hall, San Francisco, California.

As Supervisor I fathered Golden Gate bridge project. As member of bridge association I followed it perseveringly for years and successfully fought entrenched private interests. Returned it to Board clean with no commitments as to patents, royalties, et cetera. Bridge is physically feasible. Some high in authority in San Francisco would kill project by overestimating costs. Financial feasibility of bridge should be determined by its friends. Until costs are determined by unprejudiced engineers I would like to continue work as a director. I secured War Department approval, which still stands.

RICHARD J. WELCH, M. C.

Washington, D. C.

Supervisor J. Emmett Hayden, City Hall, San Francisco, California.

Would like to retain my identification with Golden Gate bridge project as a director. Made desire known to several members of Board. Would have spoken to you and other members except for the fact that I was confined to my home with influenza before leaving for Washington. Regardless of contrary reports War Department ruling secured by me still stands.

RICHARD J. WELCH, M. C.

Whereas, the City and County of San Francisco is a part of the Golden Gate Bridge and Highway District, which said Bridge and Highway District has been organized under and pursuant to the provisions of an Act of the Legislature of the State of California, entitled, "To provide for the incorporation and organization and management of bridge and highway districts, etc., approved May 25, 1923, and the acts amendatory thereof"; and

Whereas, the Secretary of the State of the State of California has issued his certificate of incorporation declaring the said Golden Gate Bridge and Highway District to have been duly incorporated, formed and organized, and has notified the Board of Supervisors of the City and County of San Francisco of the formation and organization of said Golden Gate Bridge and Highway District; and

Submission to State Tax Commission of Proposed Plan for Revision of Dual Tax System Affecting San Francisco's Interests.

Resolution No. 30180 (New Series), as follows:

Whereas, in 1911 the State of California put into operation a tax system which can be generally classified as a dual tax system which, briefly explained, means the segregation of sources of revenue for State purposes from sources of revenue for the support of County and Municipal Government; and

Whereas, the operation of the present tax system has demonstrated that a great number of inequities exist and that certain counties are discriminated against; and

Whereas, it appears that the City and County of San Francisco would greatly benefit financially if the State tax system was revised; and

Whereas, it is believed that if the State were authorized and empowered to collect a direct tax by applying the County tax rate to the assessed valuation of the properties appearing on the Operative Roll in each County and, after deducting from the revenue so derived that amount of money necessary for the support of the State Government which would properly come from this source, then to refund the balance so collected to each County on the basis of its Operative Roll, that the fundamental principle of taxation would be more nearly realized and a far more equitable distribution of tax revenues would result than under the present system of taxing gross income of public utilities on a fixed percentage basis; and

Whereas, the Legislature at its last session authorized the Governor to appoint a State Tax Commission to make a study and survey of the State taxation system and to report at the coming session of the Legislature its recommendations for the revision of said State taxation laws; therefore, be it

Resolved, That the Special Committee appointed by the Board to consider possible changes or revisions in the State taxation system affecting San Francisco's interests be authorized to submit its plan or suggestions to the Board of Supervisors for its consideration and approval, and after the Board has acted thereon forward the recommendations to the California Tax Commission which is now in session preparing its report to the Legislature for its consideration and recommendation.

Shell Oil Co. Commended for Christmas Display and Gifts to Children.

Supervisor Gallagher presented:

Resolution No. 30183 (New Series), as follows:

Whereas, the Shell Oil Company of California has, at its station located at Fell and Baker streets, decorated and beautified such station for the Christmas season in such a manner as to favorably attract city-wide attention and make it an object of civic pride and worthy of recognition as such; and

Whereas, by its distribution of sweets and toys to the kiddies, one and all without discrimination, the company instills boundless and exceeding joy into the hearts of these little children, many of whom will know no other beneficence, which, inherently, children expect at the Yuletide season; therefore, be it

Resolved, That this Board of Supervisors hereby tenders its expression of warm gratitude to the Shell Oil Company of California for the commendable and noteworthy attitude which the company evidences toward the populace of San Francisco.

ROLL CALL FOR PETITIONS.

Supervisor Gallagher Explains Absence.

The following was read by the Clerk and *filed*:

December 29, 1928.

To Honorable Board of Supervisors.

Dear Sirs: Mr. Andrew J. Gallagher has been under my care for the last six weeks, suffering from recurrent attacks of this year's so-called "influenza," which is really a persistent streptococcic infection of the nose and throat, with a strong tendency to relapse.

He apparently recovers and then gets sick again. This has happened several times, so I have advised him to go south for a couple of weeks in search of warmer weather and see if he cannot permanently throw off the condition.

Respectfully,

DR. L. A. SMITH,

Dear Mr. Dunnigan: I acknowledge receipt of your telegram conveying to me the congratulations of the Board of Supervisors upon the passage of the Boulder Dam bill. I appreciate greatly the telegram and ask you to convey to the Board of Supervisors my thanks for it. Congressman Welch Thanks Board for His Appointment as Golden Golden Gate Bridge Director.

The following was read and ordered *filed*:

Washington, December 31, 1928.

John S. Dunnigan, Clerk of the Board of Supervisors, San Francisco.

Kindly convey to the Board of Supervisors my appreciation for permitting me to continue the work that I enjoy as a Golden Gate Bridge director. This bridge can be built and should be built if bonds can be amortized by tolls and revenues. The problem of amortization must be determined by its friends. The transbay bridge project is now in better shape in Washington than at any time since its inception. Build the bridges, continue highway development, create port district to include San Francisco and San Mateo counties, placing financial security of harbor in counties behind port, and take from Los Angeles, Oakland and other rival ports the power that has been exercised in the past to veto our harbor bonds. Extend sea wall to south, reclaim tide lands for commerce and industry. That should be our program for the new year. Toward that end San Francisco's legislators in Washington, Sacramento and San Francisco should work in unison. Happy New Year to all.

Resolution No. 30196 (New Series), as follows:

Whereas, the people of the State of California on November 6, 1928, approved a bond issue of $6,000,000 for the acquisition of lands in the State for park purposes, said purchases to be contingent upon their being matched by private subscription; and

Whereas, this Board has been informed that the Russian Gulch project (Project No. 2305) has been included in the list of areas to be acquired, said prospective park lands being situated between Fort Bragg and Mendocino, in the Redwood Empire; and

Whereas, this Board has given active support to the development of the Redwood Empire, not only with regard to the construction of highways as a means of access, particular reference being made to the proposed Coastline Highway, but also as the premier recreation center of the State of California, as well as the entire Nation, and as this project is contiguous thereto and will form an added attraction to said Redwood Empire; therefore, be it

Resolved, That this Board of Supervisors urges the State Park Commission to make an early selection and advancement of the Russian Gulch project as a part of their program, as it is meritorious and of inestimable value to the Coastline Highway development and will be one of the most wonderful scenic attractions in connection therewith; and be it

Further Resolved, That the Redwood League and other organizations lend their active support to give this desirable and worthy project their financial support in order to secure the necessary State aid.

Relative to Appointment of Golden Gate Bridge Directors.

His Honor Mayor Rolph, after the transaction of other business, called attention to Resolution No. 30179 (New Series), providing for the appointment of the following named as directors of the Golden Gate Bridge and Highway District: Carl A. Henry, William P. Stanton, William P. Filmer, Franck R. Havenner and Richard J. Welch. He declared that inasmuch as this is a State matter he had no authority to act on or veto the resolution, but acting on the authority given by the Charter, he wished to bring to the attention of the Board matters which he thinks are of vital importance to the City of San Francisco, and for the purpose of giving the Board an opportunity to review its action of December 24th, which, he said, has resulted in storms of protest in the press and over the telephone. He called attention to a writ of review pending in the Supreme Court, which, if issued, will stay proceedings, thereby making the appointment of directors premature. He stated that we must have public confidence in order to carry the bonds. He also called attention to the Charter provision that no employee of the City can draw two salaries. The Supervisors on the directorate of the bridge district will get $20 each meeting for not more than three meetings a month. He mentioned E. L. Finlay, editor, of Santa Rosa, and Robert Dollar as being opposed to politics in bridge appointments. He suggested that the Board reconsider the matter on the question of the validity of the action taken and the advisability of appointing Supervisors as directors.

Mr. George E. Ames was granted the privilege of the floor and heard on the pending matter.

City Attorney John O'Toole was also heard.

Supervisor Gardiner of Marin was also heard.

Motion.

Whereupon, a motion was made and *carried* that the Board recess until 10 o'clock Thursday, January 3, 1929, to consider the subject matter.

Thereupon, Supervisor Havenner presented the following resolution and asked that it be placed on the calendar for that meeting.:

Consideration of the Matter of the Appointment of Bridge Directors—Supervisor Havenner's Resolution.

Resolution No. ———— (New Series), as follows:

Whereas, this Board of Supervisors did, pursuant to the provisions of an Act of the Legislature of the State of California entitled "An Act to provide for the incorporation and organization and management of bridge and highway districts," by resolution duly adopted on the 24th day of December, 1928, appoint six residents of the City and County of San Francisco directors of the Golden Gate Bridge and Highway District; and

Whereas, four of said six persons so appointed were, at the date of their respective appointments, and now are, holding office, either as officials of the City and County of San Francisco or of the United States; and

Whereas, there has been a widespread and well-defined objection voiced to the fact that a majority of the directors of said bridge and highway district appointed from San Francisco have been persons who are already holding public office; now, therefore, be it

Resolved, That this Board of Supervisors does hereby respectfully call upon the four persons heretofore appointed as directors of said bridge and highway district, who were at the date of their respective appointments, holding other public office, to resign as directors of said bridge and highway district, and that upon said resignations being

tendered they be forthwith accepted, and that consideration be then given to the appointment of the successors to said persons so resigning.

Columbia Broadcasting Company Thanked.

Supervisor Havenner moved that the Clerk be directed to express the appreciation of the Board to the Columbia Broadcasting Company for its gratuitous service in broadcasting the East and West Shrine football game recently held in Kezar Staudium.

So ordered.

RECESS.

Whereupon, the Board, at the hour of 1:15 p. m., took a recess until Thursday, January 3, 1929, at 10 a. m., to consider matters relating to the appointment of Golden Gate Bridge and Highway District directors. The Clerk was instructed to issue a call of the Board.

J. S. DUNNIGAN, Clerk.

Approved by the Board of Supervisors January 14, 1929.

Pursuant to Resolution No. 3402 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, John S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the date thereon stated and approved as above recited.
